of obligations incurred in the financing of the construction grant associated with the project. Require that the state funding commitment be in the form of a construction grant to the City of Kenosha. Specify that before approving any state funding commitment for the museum and before awarding the construction grant, the Building Commission would be required to determine that the City of Kenosha has secured additional funding commitments of a at least \$1 million from nonstate revenue sources. Provide that if the Commission authorizes a grant to the City of Kenosha and if the facility that is constructed with funds from the grant is not used as a Civil War museum, the state would retain an ownership interest in the facility equal to the amount of the grant.

Specify that the Building Commission and DNR would not be allowed to make any grant to the City of Kenosha for the project, unless the Department of Administration has reviewed and approved the plans for the project. Exclude the project from the current law state construction and contracting requirements for state construction projects by specifying that DOA would not be allowed to supervise any services or work or let any contract for the project. Further exclude the contracts for the project from the written approval of the DOA Secretary or the Governor as required under current law for most state construction projects. This project, with a larger project enumeration amount, was deleted from the Building Commission's recommended building program by Joint Finance.
