Total SMV Expenditures: Year 2001

Wisconsin Share	Federal Share	Total
Approx. \$15,500,000	Approx. \$22,000,000	Approx. 37,500,000

Note: This increase merely brings the Specialized Medical Vehicle program back near the level of 1992 reimbursement rates adjusted for inflation.

This funding level request is not an exaggeration of the need! It is absolutely necessary if we are to stabilize a program that actually saves a great deal of money for the State in the overall system of Health Care Delivery in Wisconsin.

If little or nothing is done now, we will see another situation similar to what happened in Dental care. The difference being, SMV provides access to the entire range of medical care. Therefore, the loss of SMV will have wide ranging effects on the entire system, including costs and the overall health and well being of recipients.
