

Thank you Chairman George and Members of the Committee on Judiciary, Consumer Affairs, and Campaign Finance Reform for holding a public hearing on our bill.

SB 371 has been dubbed the Peeping Tom bill. Senator Roessler and I brought this legislation to you at the request of local law enforcement. It was brought to our attention because of a shortcoming in state law.

The bill defines the crime of window peeping. While it has always been a crime—prosecuted as disorderly conduct, law enforcement could not track offenders. There have been several cases of habitual window peeping cases. Without the means to prosecute and treat this behavior it often escalates to more serious crimes.

With that we can answer your question. There are law enforcement officers here to testify in support and answer any questions you have as well.

My name is John Manion and I am the Assistant Chief of Police at the Kaukauna Police Department in Outagamie County. I have been in law enforcement for about 18 years and the majority of that with the city.

Through those years I have come in contact with many people and many different situations both involving criminal peculiarities but more so involving human nature itself. I have followed particular individuals in my career on a local basis and in other jurisdictions. I have done this because they have continued to offend in our society.

As I tracked these individuals who have various criminal histories I would occasionally try and figure out why they do what they do. One specific individual has done many different crimes both minor law violations to more serious ones.

This individual is an adult male that has started a younger person in his teens committing crimes of from Illegal Lights and Sirens to Arson. In between those crimes were Disorderly conduct acts (window Peeking) Trespass, Loitering to property, all of which had to do with window peaking. He has been at many fires that were of suspicious nature and arson.

On one occasion he was chased from a window peaking complaint by the husband of the woman that was being watched. An officer was in on the chase but he made it to his home and inside before he was caught. Officers knew his Mode of Operation and knew that he would come out side again to retaliate. They waited for him and twenty minutes later he came out of the house very quietly and started to walk back into the neighborhood. He was later stopped by officers in the other yards. In his possession were small butane lighter and a handful of self-starter briquettes. It was determined that he was going out to start another fire. He was arrested for nothing that night.

This individual has since been a suspect in other fires and window peaking complaints and the worst case being where a man caught this male window peaking at his neighbor's house. The complainant called the police that night. Approximately one week later the complainant's house was started on fire (arson) and the suspect was standing outside watching it burn in the early morning hours. The complainant almost died in that fire but a patrol officer saw the fire and got the sleeping man out of the house.

This bill will assist us not only with arresting the person for the criminal act that commit but also for identifying them as a sexual offender. This will assist an officer, who may for example, see a male party watching a woman sunbathing in the park, stop and take a closer look at him because they know he has a sexual offenders past.

There are records of individuals that offend as window peepers and do in fact continue on to offend in worse criminal acts such as rape, abduction and murder, (i.e. David Spanbauer). Probation and Parole Sexual Offender Supervisors have indicated they have just such people that they supervise. They believe there is a connection in many case but of course not all and also strongly support a law of this type.

State Representative
Lee Meyerhofer

Dear Senator George,

I thought it might be interesting for you to see Kenneth Culvers arrest record. All but two are peeping violations. He also has about an additional 10 local arrests that don't show up on this report.

I hope this is helpful to you.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lee Meyerhofer".

CRIMINAL JUSTICE SUMMARY DATA

FIRST ADULT ARREST DATE: JUNE 15, 1973

/0072 1276 WI0710000
CCH 131381 41 09/18/00 14:19 03 OF 30

My name is Deborah Kremer. I use to live 4 buildings away from from the Police Dept. when I was victimized Oct.25th,1999 by Kenneth Culver. A repeat offender 46 times of voyeurism.

I returned home alone from my 2nd shift job around 10:45/11:PM. When I got inside my lower apt. I turned on my bedroom light and TV. I got totally undressed and drew myself a bath. Afterwards I returned to my room, took off my towel and applied body lotion to myself taking my time massaging into my achy calves as I watched TV.

I was confident of being in total privacy even though my bedroom window faced a very busy street. I had 3 layers of coverings over it. There was frosted contact paper upon the window itself with mini blinds tightly closed overtop and curtains drawn shut over the blinds.

Moments later I could see bright flashing police lights coming through my window treatments. I didn't think anything of it as it was a common occurrence for speeders to be pulled over in front of my house.

However I did become curious when I heard voices outside my bedroom window. I put on my sweats and went outside to see what happening. I talked to 1 of the 3 Officers only to learn that I had just fallen victim to a window peeper.

I asked Officer Eric Stenson if I could take a look at him. Officer Stenson honored my request and shined his flashlight upon his face as he sat handcuffed in the back of the Police car.

Officer Stenson came inside to take a statement from me, while the other two Officers Kurt Schoeni & Brent Buehler took Kenneth Culver to jail.

After giving my statement to Officer Stenson he began telling the repetitious history of Kenneth Culvers insidious predatorial behaviors. He was very apologetic to me to have let this man carry out and gratify his sexual perversion to the point of ejaculation of seminal fluids below my bedroom window. Officer Stenson had been on this case for as many as 7 years trying to gather as much evidence as possible to get a conviction of this repeat offender as he gets more bold towards his victims.

Since this incident I have relocated and bought myself a Rottweiler along with other added security throughout my home indoors and out. I am keenly aware of my surroundings and I can never be too safe as I take precautions with every coming & going.

I truly believe I was raped of my privacy. As Kenneth Culver stood predator outside my window leering into my comfort zone. I can't help but think he was there before. since he observed me through frosted contact paper that had curled up from the very bottom of my window sill. It was the size of sliver, no bigger than a toothpick. Only an obsessed & deviant individual would try so hard and be so bold to prey upon their victim as he could be readily seen by passers by on a busy street.

A few nights ago I let my Rottweiler outside chained to a cable just outside my door. He noticed immediately someone in my backyard. I stood by him and seen a black silhouette of a man standing beyond the motion light. He silently stood in his footsteps for a moment then called to his little dog, Mia come here. then the dog barked and they left the yard.

Once again I was reminded of Kenneth Culver. And I began second guessing myself. Despite the probable innocence it could've been??? Was it a ploy to excuse the intent of another window peeper??? Just when I think I can rest assured, I can only be sure not to let my guard down. I've gotten pretty good at convincing others I can tough it out, but sometimes I have a hard time convincing myself.

But, the one thing I am certain of is that we truly need a law against "voyeurism!" In my line of work, I have learned much about Sexually Violent Predators and their thought process. Nearly all of them will tell you they are innocent of any wrong doing. They try to minimize the seriousness of their crimes, and fail to see a pattern in the repetition of their crimes.

If you would'nt mind bearing with me a little longer I'd like to make reference to a couple of quotes. And one would be from State Of The Union Bush Proposal as I quote President Bush reflecting on September 11th.

He said quote: Terrorists of another kind. Terror of our physical and well being. We not only become a hostage of crime, but of our own mind. A growing danger, we can't stop short or our sence of security is lost.

Todays crime reflects Voyeurism. And Webster quotes it to be a person who obtains sexual gratification by looking at sexual objects or acts, especially secretively. Also included: A person who derives exaggerated or unseemly enjoyment from being an observer.

Anyone having fallen victim to Voyeurism has its side effects like any other injustice. Its a violation of privacy and the security of our well being in every way imagineable. It becomes a challenge to trust your self judgement as well as all others.

I hope you will vote a law against it because Voyeurism is no doubt in my mind, an escalation factor to becoming a sexually violent predator in the making.

And finally last but not least I would like to thank Officers Brent Buehler and Kurt schoeni and especially Eric Stenson for his 7 years of diligence and earnest efforts of compiling evidence to result in the conviction of Kenneth Culver. I know you're here with me in spirit and support, as is my father and Detective Cheryl Johnson and Deputy Chief John Manyon.

I can't express enough how much I appreciate all your support. I'm forever grateful. God Bless everyone that has been a victim of this crime or any other injustice.

Sincerely yours
Deborah Lynn Kremer
