Prohibit retailer from requesting social security numbers of customers					

Assumptions Used in Arriving at Fiscal Estimate

Bill Summary: Current law generally does not prohibit a seller from requesting that a customer disclose his or her social security number. This bill prohibits a seller of goods at retail from making such a request unless the seller is required to do so in issuing fish and game approvals as an agent of the Department of Natural Resources (DNR). Under current law, DNR is required to obtain the social security number from an applicant for a fish and game approval so that the state may determine whether the applicant is delinquent in the payment of certain state taxes or in the payment of child support or other court-ordered family support or birth expenses. If an applicant is delinquent or fails to provide his or her social security number, the agent must deny the application for the approval.

Fiscal Effect: This bill would have no effect on the Department or its license vendors when they are acting correctly in the normal course of selling recreational approvals. The bill preserves the authority of a Department employee or an employee of a license agent to request a customer's social security number as a legitimate part of a licensing transaction.

Long-Range Fiscal Implications

None.
