LRB Number 03-2218/1	Introduction Number	SB-202	Estimate Type	Original						
Subject										
Purchase of health care coverage by individuals engaged in the business of farming through the Group Insurance Board										

Assumptions Used in Arriving at Fiscal Estimate

This bill allows any Wisconsin resident who is engaged in farming to receive coverage under health insurance plans administered by the Department of Employee Trust Funds.

The Department of Employment Relations does not have data with which to determine the fiscal impact of allowing farmers to participate in the state insurance plans. Therefore, the fiscal effect is indeterminate.

There would be no impact on operational costs of the Department of Employment Relations.

Long-Range Fiscal Implications
