Assumptions Used in Arriving at Fiscal Estimate

This legislation changes the presidential preference primary from the first Tuesday in April of presidential election years to the third Tuesday in February. This shifts the presidential preference primary from the date of the spring election to the date of the spring primary.

This means that all 1,850 municipalities will have an election event in February. Under current practice it is not unusual that there is no primary election event in many of the Wisconsin's towns, cities and villages unless there is a statewide primary.

There are no statewide elections scheduled for 2004 or 2008. If that holds, many municipalities will have to rent polling places and hire election inspectors (pollworkers) for an additional election event. The number of municipalities in that situation can not be determined because it depends on whether the municipalities would have had a primary for a local or judicial office. This is not known until after the deadline for filing nomination papers on the first Tuesday in January.

Other preparation costs are merely shifted to an earlier time.
