Subject: Same Sex Health Club

Senator Roessler-

Thank you for introducing the bill to make same-sex health clubs legal. I think that both men and women should have the opportunity to exercise without the stigma of trying to impress or be concerned about the opposite sex watching them. I am sure that there are also other groups would like the ability to exercise and exclude others and this will give them a good start towards getting this right.

Sincerely,

Todd Palecek

Subject: Bill for state's Curves fitness centers

Dear Senator Roessler,

I am writing in support of the bill you are sponsoring that would allow the state's Curves fitness centers to continue serving women only. A member of the Fond du Lac Curves for Women I chose to join this organization because it was not coed and offered the privacy that I and many other women want. Please go to bat for us!

Sincerely,

Lois Callies

Subject: Curves for Women

This letter is in regards to the fitness club membership for Curves for Women.

I am writing to you to let you know that I am a member for Curves for Women and would like to voice my opinion on the membership being restricted to women members only.

Curves for Women is a 30 minute fitness and weight loss program designed for the women body. I have been a member for 16 months and feel it is an effective program that benefits its members.

Curves for Women has the intention of offering a fitness program that offers the surroundings and support to its members. Although I do not believe in discrimination against males in a exercise program, I believe that Curves for Women has been designed for the women in mind, therefore it should be offered to just women.

There is a certain amount of security and comfort in knowing that when you walk into their facilities, you are among other females.

Please consider this opinion as you look at any bills that would change this option. Thank you for your consideration.

Sincerely,

*Debra Bergen*

FEB 25 2003

2/19/03

Dear Sirs,

I have been an active member of Curves for Women in Fond du Lac Wi. for a over a year now and have found it to be the most enjoyable type of exercise I have tried. I am 53 years of age and understand the need for exercise to maintain a healthy body and mind. I have been involved with a variety of exercise clubs throughout my life. All of these clubs or organizations have been co-ed and they design all of there routines to satisfy both sexes. I have never lasted very long in these for several reasons:

- I need a very structured type of exercise and most of the routines in past clubs, designed for men and women, were not structured enough. The routines were self paced to satisfy both sexes.
- I have tried aerobics, but am not co-coordinated enough, and with my busy schedule, I could not afford over one hour of predetermined time and scheduled dates.
- I firmly believe the most important reason is my comfort in working out with women only. The stretching, bending and other exercises put our body through some very compromising positions and frankly I do not want a man staring at me in those positions.

Curves for women program is one half hour in length, no guess work exercise routines, my available time, and no men. This program works – you tone up, get your cardiovascular working and by the way you can loose weight.

As we all know there is a huge and ever growing problem with obesity and lack of exercise in this country. Who should even begin to question the right of women to get more physically fit in a place where they feel most comfortable. Again, one of the main reason that most of the women at Curves are there, is because they feel comfortable working out with other women. The routine, the machines the atmosphere are all designed for women only and I firmly believe that the women that need the exercise the most will not attend if men were present.

**Our elected officials need to do whatever it takes to allow these type of clubs to remain women only.**

Vel Hynek

**Subject:** Curves Membership

I was diagnosed as a diabetic in the summer of 2002. I was told that I needed to make serious lifestyle changes, including losing 100 pounds. I have tried various diets, workout methods, including water aerobics, club memberships, step aerobics, etc. None of these things ever helped me. I never stuck to any of the diets, memberships or classes. I was too intimidated.

Then a friend told me about Curves and I got excited. I took advantage of a special free month pass over the holidays. I really love the concept - only 30 minutes and no men! Even the glass doors are covered so passersby's can't see in.

Since I have been at Curves, I feel healthier, have lost weight and many inches! If Curves were to allow men to join, I would immediately cancel my membership. I like curves because I feel safe there. If men are allowed to join, I would no longer feel safe.

Senator Carol Roessler

Representative John Townsend

Dear Senator Roessler and Representative Townsend:

This letter is regarding the "CURVES FOR WOMEN" exercise program.

I joined this program almost one year ago. To me it is an excellent program for exercising, getting to know other women, and just plain making a person feel good. It is only one half hour long using equipment geared to women and for women.

If you come to watch us or join us, as in Sen. Roessler's case, you'll see women of all ages, way up to age 80, and sizes from thin to overly heavy. I give immense credit to those who are extremely overweight - they are an inspiration to all. And as they lose we're all proud of them.

It is a program for women, definitely not strenuous enough for men.

By the way - my age - 70!

Sincerely,

Mary Havey

Subject: Excluding fitness centers from Public Accom. Laws

Dear Senator Roessler:

As you are aware, the Wisconsin Curves Association is lobbying to change public accommodations laws to exclude health clubs in Wisconsin. I am writing to ask for your support that fitness centers be excluded from these laws.

I am a member of the Curves for Women fitness center in Fond du Lac. This fitness center is run for women by women, with the equipment and workout routine geared for women, and I believe it should be allowed to remain as such. My family is also a member of the Fond du Lac YMCA where my husband and sons work out, however, I am not comfortable working out in this environment. I prefer to spend the additional money to belong to Curves, which does meet my needs and comfort level, because it is strictly for women.

I ask for your efforts to ensure that fitness centers be excluded from public accommodations laws. Thank you.

**Subject:** Curves

Dear Senator Roessler and Representative Townsend,

I'm currently a member of Curves for Women in Fond du Lac. I joined about 3 weeks ago and I love it. I joined due to some health problems and just to make myself feel better. Since it's only for women, that makes it even better. I can go there and it doesn't matter what I look like or what I'm wearing, I know it's only women working out. I'm not an over weight person, but there are many women who go here that are overweight and I can tell they are really trying to lose weight by just seeing them workout. They come here because it's only for women. I think they would discontinue coming if men were allowed to come. Today's society is over weight and women are trying to lose weight and this is a great club to belong to. Thanks for listening to me.

Subject: Curves

Senator Carol Roessler-

My name is Chris Weed and have been a member of Curves since October 2001. I enjoy Curves very much and believe it serves a great womens' market. I have belonged to other co-ed clubs and felt somewhat hesitant to go at times because of the 'status levels' or 'gender issues' which I feel don't belong in a exercise club. I wanted to go there to get my workout for the day completed without a hassle. I believe that the person(s) which have the current issues with Curves could also begin some type of club for men to attend if he/she so desired.

Thank You..

Chris Weed  
Fond du Lac

' Nothing is as strong as gentleness or as gentle as strength. '

Do any of you know of a store out there that offers necessity products at 30-40% below retail, with a 10% rebate on top of that, the products do not slowly poison you or the environment, and the products are delivered to your doorstep, and guaranteed 100% ... AND they even pay you to refer others who want to use better, safer, products as well????

It is your choice:

A. Keep using toxic cleaning and personal care products from your store (protected by a Federal Act

NOT to disclose all carcinogenic ingredients...)

B. Switch to less expensive, nontoxic, safe products which are better quality and NON carcinogenic (I can help you)

Senator Roessler,

I am writing to you in support of the bill you are introducing to permit Curves for Women to continue being an exercise facility for women only. I am in total support of this bill. My daughter and I go 4-5 mornings per week at 5:15 am to get in a work out before we head off to school and work. It is such a pleasant atmosphere to be in. With women only in attendance, we do not worry about what we are wearing, clothing wise or make-up wise. We come to Curves with one goal in mind, exercise and get our day off to a good start.

Sincerely,

Cheryl Faucett

Senator Roessler,

I am writing this letter in support of the Curves for Women work out center. In February I decided to join the Curves in Fond du Lac, and one of the main reasons for this was because it is only for women. After being blessed with the birth of a healthy baby girl in August, and because of the strange things that happen to your body after pregnancy, it is GREAT working out with only women. I don't have to be self-conscious about the way my body looks, because there are no men there. There almost seems to be an unseen bond between the women at Curves. It is really a great place to workout. If you have never been to a Curves, please try to at least visit one once. Hopefully you would agree!!

Thank you for your time.

Karie Tackett

I would like to submit this email in response to a law suit that has been filed by a male individual against the Curves Franchises of Wisconsin. I recently became a member of Curves, and I can say that one of the reasons I joined was because I knew that I would not be working out with men in the club. It is a very comfortable place to work out now, but if

men are allowed to become members, I would feel more uncomfortable and probably would not continue my membership. I am in favor of a bill that states health clubs can be gender specific. I certainly would not have a problem with a man that wanted to open a "men only" health club, as it would only be fair for them.  
Thank you for your time,  
Teresa Rauls

Senator Reames,

I am writing you  
in regard to curves.  
I like this way  
of exercising and  
mostly the privacy  
of the other women.

Thank you  
Mrs Patty News

Dear Senator Carol Roessler,

Just a short note to let you know what a blessing "Curves" has been in my life.

Having been a nurse for approx. 27yr. I found I could barely get one foot in front of the other and had to end my career in '92 due to back discomfort.

After 11yr. of doing some volunteer work here and there I started at "Curves" to see if it could help me

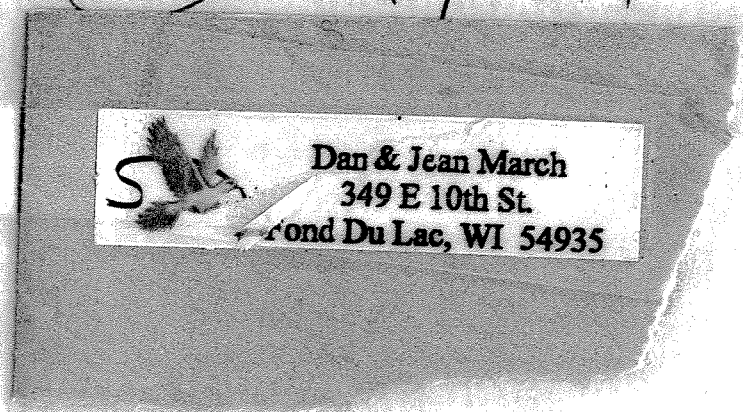

in anyway. The chiropractors  
etc. had grown weary with me.

So and Behold — for  
4 months now I've been going  
(5x a week) My back is strong  
& pain free as ever.

Just had to tell you

God Bless

Jean March

P.S. See you at "New Life"  
We've been attending there also

Dear Senator Roesler,

I am a member of the Fond-du-Lac Curves Fitness Center. I have had many opportunities to join different fitness centers over the years, but it was not until women's fitness center Curves came to town that I actually joined. I enjoy the fact that it is for women only and the type of equipment is geared for women. If this is the way to get women into the gym for training, I think it should be kept that way. Allowing men would definitely be a deterrent and I know of several women who would leave. We truly enjoy this sanctuary.

Sincerely,  
Amy LaPointe

Senator Carol Roessler.

FEB 19 2003 SJ

I love curves and have met a lot of new friends. I know its good for me, I have type II diabetes. Started to eat right and that helped. Then I joined curves. The blood sugar is under control. I'm off all medication. Thanks to Curves.

We can exercise any time of the day seven day a week. Really 6 1/2 days. So glad curves are in Fontana Ca. I hope it can be kept an all womens program.

Sincerely

Lolla M. Wise

**Choose Life . . .**

Dear Senator Fessler

I have been a member of Curves - a woman's fitness center for 2 years. As a health care professional and a member of our aging population I'm very aware of the importance of ongoing care of our health. I urge you to vote to allow health clubs to remain ALL woman (or all men) - as many women would never begin the journey to lose weight or exercise if the opposite sex were present

Sincerely  
Sandy Vercauteren

Feb 28, 02

Senator Carol Rosales,

I joined Curves Jan 15, 03. I really enjoy it very much. It gets me out of the house and I know I am doing something good for me. I am meeting a lot of different women a lot of whom have the same weight problems as I do.

Thank you

Subject: Legislation regarding womens only fitness centers

Dear Sen. Roessler & Rep. Townsend,

I am writing regarding the current legislation that will allow womens only fitness centers like CURVES for Women. I encourage you to pass this legislation.

I am a current member of CURVES and if they are forced to allow men to become members, many women like me will discontinue using the fitness center. I have belonged to co-ed health clubs and fitness centers in the past and have ended up letting my membership expire.

I am an obese woman and do not feel comfortable working out with men. I have been told by my doctor that I need to get exercise and lose weight. I need a place like CURVES.

The equipment at CURVES is designed to shape and tone a women body. If men are allowed to join, I am sure that more equipment would have to be purchased and

would probably raise the membership costs. If costs increase, there are surely women who would not be able to continue their memberships.

Please vote in favor of allowing women only fitness centers.

Sincerely,

Pam Marcoe
