Dear Legislator: Sen. Roessler JUL 01 2003

I am just one of the 47,000 patients who benefits from the newly implemented Wisconsin Medicaid Family Planning Waiver Program. This cost-effective health care prevention program provides confidential and affordable access to breast and cervical cancer screenings, contraception, sexually transmitted infection testing and treatment as well as pregnancy testing and counseling.

I am concerned about recent efforts to eliminate this important program that benefits the health and well-being of women like me. Please reject efforts to eliminate this program and support the continuation of the current family planning program that provides health care coverage to all low-income women of child bearing age.

Thank you for your support of women's access to basic health care.

Sincerely, STEPHANIE from Winnebago County.

I would like to be contacted about your views on this issue:

Sen. Roessler Be Part of the Solution.

JUL 01 2003

Dear Legislator:

I am so thrilled the Wisconsin Medicaid Family Planning Waiver Program has finally started! (Wisconsin women have been waiting over 5 years for it!) This prevention program not only helps women avoid unintended pregnancy but also gets them the medical health care they require to prevent cervical cancer and treat STD's. It gives women and families control over their lives, childbearing, education, and careers.

I know you play an important part in making public policy changes like this family planning waiver. Not only does it help women, but everyone in Wisconsin because it saves state taxpayers money.

WE THANK YOU FOR YOUR SUPPORT!

(If you are not supporting this program then please begin now!)

Thank you for your help and courageous support of women & families in your district.

Sincerely, AMY ROBEL from OSHKOSH County.

Please send me a response to this message, I would like to know your views on this topic.

My address is: 1130 CHERRY ST, OSHKOSH, WI

SB1810

Dear Representative and Senator:

JUL 08 2008

I strongly support the Family Planning Waiver so that teens and low-income women will be assured access to basic diagnostic and preventative health services. The Waiver helps give low-income women of reproductive age access to annual physical exams, cervical and breast cancer screenings, testing and treatment for sexually transmitted infections, and contraception. According to figures we've seen, an estimated 47,000 women be helped. Not only does the program help women, it benefits Wisconsin taxpayers. The Federal Government will cover 90% of the expenses, (tax payers pay only 10%) and as a result, the program will attract \$7.6 million in federal aid each year and will save state taxpayers \$17 million. Please support the Family Planning Waiver for women of reproductive age (15-44).

Sincerely,

According to figures we've seen, an estimated 47,000 women be helped. Not only does the program help women, it benefits Wisconsin taxpayers. The Federal Government will cover 90% of the expenses, (tax payers pay only 10%) and as a result, the program will attract \$7.6 million in federal aid each year and will save state taxpayers \$17 million. Please support the Family Planning Waiver for women of reproductive age (15-44).

Sincerely,

Dear Representative and Senator:

I strongly support the Family Planning Waiver so that teens and low-income women will be assured access to basic diagnostic and preventative health services. The Waiver helps give low-income women of reproductive age access to annual physical exams, cervical and breast cancer screenings, testing and treatment for sexually transmitted infections, and contraception. According to figures we've seen, an estimated 47,000 women be helped. Not only does the program help women, it benefits Wisconsin taxpayers. The Federal Government will cover 90% of the expenses, (tax payers pay only 10%) and as a result, the program will attract \$7.6 million in federal aid each year and will save state taxpayers \$17 million. Please support the Family Planning Waiver for women of reproductive age (15-44).

Sincerely,

Dear Legislator: Sen. Koessler, III 01 2003

I am just one of the 47,000 patients who benefits from the newly implemented Wisconsin Medicaid Family Planning Waiver Program. This cost-effective health care prevention program provides confidential and affordable access to breast and cervical cancer screenings, contraception, sexually transmitted infection testing and treatment as well as pregnancy testing and counseling.

I am concerned about recent efforts to eliminate this important program that benefits the health and well-being of women like me. Please reject efforts to eliminate this program and support the continuation of the current family planning program that provides health care coverage to all low-income women of child bearing age.

Thank you for your support of women's access to basic health care.

Sincerely, Christina Brockert from Winnebago County.

I would like to be contacted about your views on this issue:

My address is: 1229 Walnut St. Oshkosh WI 54901

Sen. Reessler 2 2003 JH

Dear Legislator:

I am so thrilled the Wisconsin Medicaid Family Planning Waiver Program has finally started! (Wisconsin women have been waiting over 5 years for it!) This prevention program not only helps women avoid unintended pregnancy but also gets them the medical health care they require to prevent cervical cancer and treat STD's. It gives women and families control over their lives, childbearing, education, and careers.

I know you play an important part in making public policy changes like this family planning waiver. Not only does it help women, but everyone in Wisconsin because it saves state taxpayers money.

WE THANK YOU FOR YOUR SUPPORT!

(If you are not supporting this program then please begin now!)

Thank you for your help and courageous support of women & families in your district.

Sincerely, Stephanie Howard from U.S.A. County.

Please send me a response to this message, I would like to know your views on this topic.

My address is: 879 Bowen St. Oshkosh WI
