1 AN ACT to amend 71.52 (6) of the statutes; relating to: modifying the definition
2 of income under the homestead tax credit.

Analysis by the Legislative Reference Bureau

Under current law, the definition of "income" under the homestead tax credit is the sum of Wisconsin adjusted gross income (AGI) and a number of items that are not otherwise includable in Wisconsin AGI, such as certain public assistance payments, nontaxable interest received on state and municipal bonds, and certain retirement benefits.

Under this bill, the definition of "income" under the homestead tax credit is modified such that interest income received from the installment sale of certain real property which includes a claimant's former homestead, up to the amount of interest that is paid by the claimant on a mortgage to purchase another homestead, may be subtracted from income in determining the claimant's homestead tax credit.

and to the extent that the interest relates to the homestead

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
