Under current law, if a person who owns, leases, or controls land where wildlife damage occurs, that person may apply with the county for a wildlife damage claim payment and for assistance with wildlife damage abatement. Currently, if the person receives a wildlife damage claim payment and wildlife damage abatement assistance, the person must permit hunting on the property where the wildlife damage occurred. The only exception to this requirement to allow hunting is if the person who receives the payment of assistance does not have authority to control entry onto the land where the wildlife damage occurred.

This bill continues to require a person who receives any wildlife damage claim payments to open the land involved in the wildlife damage to hunters but allows a person who receives only wildlife damage abatement assistance and no payments to not open the property involved in the wildlife damage to hunting.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

ASSEMBLY BILL 566**SECTION 1**

8 requirement to permit hunting under this subsection, the land shall be open to
9 hunting during the appropriate open season. The county, with the assistance of the
