- 1 **AN ACT to amend** 348.26 (2); and **to create** 348.26 (4m) of the statutes; **relating**
 2 **to:** single trip permits for ~~overweight~~ vehicles transporting certain buildings on
 3 the highways.

Analysis by the Legislative Reference Bureau

Current law imposes size, weight, and load limits on vehicles that travel on the highways. The Department of Transportation (DOT) and local highway officials may issue certain permits authorizing the permittee to operate a vehicle that exceeds these limits on vehicle size, weight, or load. With the exception noted below, DOT may issue single trip permits authorizing the operation of vehicles exceeding statutory length limits on state trunk highways, and local highway officials may issue single trip permits authorizing the operation of vehicles exceeding statutory length limits on local highways under their jurisdiction and on state trunk highways within the county or municipality which they represent. However, only DOT may issue a single trip permit for the movement of an oversize mobile home, regardless of the highways to be used.

Under this bill, DOT may issue single trip permits for the movement of manufactured homes or manufactured buildings, regardless of the highways to be used, but local highway officials may not issue these permits. These permits may not be issued for operation of a vehicle combination exceeding 110 feet in overall length or for movement of a manufactured home or manufactured building exceeding 80 feet in length.
