**ASSEMBLY SUBSTITUTE AMENDMENT 1,  
TO 2005 ASSEMBLY BILL 258**

September 2, 2005 - Offered by Representative GIELOW.

1 **AN ACT to create** 450.11 (4m) of the statutes; **relating to:** prescription drug  
2 labels.

---

***Analysis by the Legislative Reference Bureau***

Under current law, a pharmacist may dispense a drug product that has been designated by the federal Food and Drug Administration (FDA) as the therapeutic equivalent of the drug product that is prescribed (drug product equivalent), if the drug product equivalent is cheaper. Current law also requires a prescription drug label to specify certain information, including the name and address of the practitioner who prescribed the drug, the date on which the prescription was dispensed, the name of the patient, and directions for the use of the drug product or device.

This substitute amendment permits a pharmacist who substitutes a drug product equivalent for a brand name drug product to include a statement on the label identifying the prescribed brand name drug product, unless the prescribing practitioner requests omission of the brand name.
