## Fiscal Estimate Narratives

DOT 4/6/2006

LRB Number	<b>05-4858/1</b>	Introduction Number	<b>AB-1169</b>	Estimate Type	<b>Original</b>
<b>Description</b> Building a certain vehicle weighing station in Rock County, building a certain interchange in Rock County, and creating a vehicle weighing station surcharge for size and weight violations detected at a certain vehicle weighing station in Rock County					

### Assumptions Used in Arriving at Fiscal Estimate

This bill prohibits DOT from constructing, before January 1, 2057, any motor vehicle weighing station on the southbound lanes of I 39/I 90 in Rock County and prohibits DOT from building an interchange at the intersection of Townline Road and I 90 in Rock County. There is no cost associated with these prohibitions.

This bill imposes a 10 percent surcharge on all size and weight violations that are detected at a vehicle weighing facility located on the northbound lane of I 39/I 90 in Rock County and the surcharge is paid to the Town of La Prairie in Rock County.

During Calendar Year 2004, the following enforcement activity was recorded for the northbound weighing facility on I 39/ I 90 Utica Safety Weight Enforcement Facility (SWEF) in the Town of Pleasant Springs, Dane County:

2,518 Motor Carrier Safety Assistance Program (MCSAP) Inspections. Trucks are inspected to detect broken or defective equipment and ensure safe operation

- 15,718 violations
- 597 citations resulting in \$119,544.20 in revenue

Size/Weight Enforcement

- \$73,270.06 in revenue

Total of \$192,814.26 in revenue at Utica SWEF for CY 2004 of which \$73,270.06 would be subject to the 10% surcharge.

Hence, there would be a surcharge of approximately \$7,300 added by the court to the size and weight forfeitures and provided to the Town of La Prairie for any weight facility established in the specified location. The present Utica scale is a minor facility. The facility was constructed in 1963. There is no running water. Utica was scheduled to be removed after being replaced with a larger facility with modern technology. The enforcement activity at an improved facility would likely be greater.

There would be a one time indeterminate cost to establish and implement the new surcharge.

### Long-Range Fiscal Implications

There would likely be incremental increases in the total amount of any surcharge collected and provided to the Town of La Prairie depending on the functionality and hours of operation of a safety and weight enforcement facility at the specified location. The enforcement activity at an improved facility would likely be greater than at the sample Utica SWEF.

## Fiscal Estimate Worksheet - 2005 Session

Detailed Estimate of Annual Fiscal Effect
