<b>Description</b> The purchase of chicken, turkey, beef, and pork products by state agencies, school districts, and technical college districts		

**Assumptions Used in Arriving at Fiscal Estimate**

If enacted, this bill would add criteria to the purchase process for chicken, turkey, beef and pork by state agencies, school districts, and technical college districts. The bill would require these entities to give preference to meat products produced without the use of non-therapeutic antibiotics. The bill further stipulates that such preference will be given only if the non-therapeutic meat is similar in quality, quantity, availability, and price to standard products. Given that price is one of the determining factors, this legislation should have minimal financial impact. There may be additional staff or contract services required to monitor this requirement.

**Long-Range Fiscal Implications**
