Subject Granting of easement to public utility for transmission line		

Assumptions Used in Arriving at Fiscal Estimate

This bill would implement a process for negotiation of payments from utilities for transmission line rights-of-way on certain lands owned by governments, or other utilities.

The bill would not have a fiscal effect on the Public Service Commission. It is not clear what the impact of the bill would be on local government because the PSC does not have the information that could assist in determining any effects.

Long-Range Fiscal Implications

None for state.
Indeterminate for local government
