Description Inclusion in the curricula for instructional programs in human growth and development informational materials describing the procedures for adoption and listing agencies that provide adoption services		

Assumptions Used in Arriving at Fiscal Estimate

Under current law a school board may provide an instructional program in human growth and development in grades kindergarten to 12 that may include instruction in the following areas: 1) self-esteem, responsible decision making, and personal responsibility; 2) interpersonal relationships; 3) discouragement of adolescent sexual activity; 4) family life and skills required of a parent; and 5) human sexuality, reproduction, family planning, human immunodeficiency virus and acquired immunodeficiency syndrome, prenatal development, childbirth, adoption, available prenatal and postnatal support, and male and female responsibility. If a school board offers instruction in any of these areas, it must also provide instruction in marriage and parental responsibility.

This bill requires the Department of Health and Family Services to prepare and distribute to all school boards that provide instructional programs in human growth and development, for inclusion in the curricula for those programs, informational materials describing the procedures governing adoption and listing, by geographical region, all public and private agencies that provide adoption services.

State Fiscal Effect:

This bill will have no state fiscal effect on the Department of Public Instruction.
