To the Honorable, the Assembly:

In 1999 the State Legislature included a \$75,000 annual grant in the state budget to be matched with \$25,000 of private funds for the purpose of establishing, maintaining and promoting the Ice Age National and State Scenic Trail. The Ice Age Park and Trail Foundation (IAPTF) has been delighted to be the recipient of that grant since 2000. It is my

pleasure to submit our final report for the year 2004, as required by statute s. 23.925.

The Ice Age Park and Trail Foundation is a volunteer and member based organization whose mission is to create, support and protect the Ice Age Trail – designated a National Scenic Trail in 1980 and State Scenic Trail in 1987. The Trail is the only unit of the National Park Service and the only National Scenic Trail that commemorates the effects of continental glaciation in the United States.

We genuinely appreciate your continuing support and your partnership. Please telephone me at 608-663-1240 with any questions you may have.

Department of Transportation
Madison

December 30, 2004

To the Honorable, the Assembly:

I am pleased to present to you, for distribution to the Wisconsin Assembly, the annual evaluation report on the Pretrial Intoxicated Driver Intervention Grant Program. It is

also available on our website

www.dot.wisconsin.gov/library/publications/topic/safety.

The program, created by section 86.53 Wis. Stats., was established by the legislature in 1997 with the requirement that the Department study its impact and report on its findings.

The Pretrial Intoxicated Driver Intervention Grant Program is intended for offenders who are arrested for their second or subsequent OWI (Operating While Intoxicated) offense. Overall, offenders participation may be voluntary or court order. It is an intervention model designed to get offenders into counseling, treatment and supervision as soon as possible after the arrest. The program is individual to each community.

As you will see in the report, no community that has begun a program has dropped it. Offenders who successfully completed the program were less likely than non-participants to be re-arrested for subsequent OWI violations. Those who were re-arrested went significantly longer between arrests than non-participants. Currently there are seven counties on a waiting list for funding to begin programs.

I commend those people who have dedicated themselves to making this innovative program a success. There are no “silver bullets” in eradicating impaired driving, but I feel this effort is a vital piece in the total transportation safety effort.

Sincerely,
MAJOR DANIEL W. LONSDORF,
DIRECTOR
Bureau of Transportation Safety

Referred to committee on **Highway Safety**.
