**Written Testimony Submitted by  
Wisconsin Education Association Council  
Public Hearing of the Senate Committee on Education  
November 29, 2005**

## **WEAC's Position on Charter Schools**

The Wisconsin Education Association Council has always supported innovation in education to create great schools. WEAC believes that district-sponsored charter schools give school districts an opportunity to create classrooms that work through innovative programs. However, research to date has not shown that charter schools have significantly improved student learning or are any more innovative than traditional public schools.

WEAC believes:

- Charter schools should be public schools and school employees should be full partners in the design, implementation, and governance of charter schools.
- Only local school boards should have the power to create charter schools. Other municipalities, colleges or universities, private or for-profit entities should not.
- Charter school funding should not disproportionately divert resources from traditional public schools.
- Charter school programs must be qualitatively different from what is available in mainstream public schools.
- Charter schools should not be used to select easy-to-educate students or to eliminate or reduce the number of special education students in the charter school.
- Wisconsin's charter school law should not be expanded.

## **OPPOSE SB 377**

WEAC opposes any expansion of the independent, non-instrumentality charter school program. This bill would allow a University of Wisconsin System school to operate or contract for the operation of a charter school in Dane County.

SB 377 relinquishes local control of public schools to a government entity too far removed from taxpayer accountability. Local public schools should be controlled by locally-elected school boards, not the Board of Regents.

SB 377 would increase the state's cost of funding independent charter schools and would result in a statewide property tax increase for local taxpayers. Each of the 426 school districts in the state suffers a reduction in the general school aids

Stan Johnson, President  
Dan Burkhalter, Executive Director

appropriation to pay for the independent charter school program. According to the DPI fiscal note for SB 96, a similar bill expanding UW System independent charter schools, "A school district's revenue limit calculation is not affected by the charter aid reduction. Thus, a school district can increase its property tax levy to offset any aid reduction made related to the charter program."<sup>1</sup>

The DPI fiscal note for AB 631 states, referring to the same independent 2r charters as SB 377, "The specific increase in the state's funding to the charter schools would be offset by a reduction in general school aids available to all 426 school districts."<sup>2</sup>

The AB 631 fiscal note goes on to state:

The following example provides information related to the cost of a single additional newly eligible pupil enrolling in a 2r charter if this bill were effective in the 2005-06 school year:

**Per Student 2r Charter Cost**

2005-06 charter school state aid amount--\$7,519

Statewide local property taxpayers' share--\$7,519<sup>3</sup>

Consequently the media release from the International Academy: Madison Campus dated September 27, 2005, is wrong or at best misleading as it states: "Those independent charter schools are funded by per pupil payments from the state, so there is no impact on property taxpayers." According to the Legislative Fiscal Bureau memo from director Bob Lang to the Members of the Wisconsin Legislature dated November 17, 2005, in 2005-06 more than \$35 million is deducted from general school aids amounts to all school districts in the state to fund the Milwaukee and Racine Charter School Program. According to the LFB memo, "Under revenue limits, school districts may levy property taxes to make up for the amount of revenue lost due to these aid reductions." Thus, the independent charter school program likely resulted in a statewide property tax increase of \$35 million.

Additionally SB 377 would result in education dollars diverted from the classroom. For example, in 2003-04 the University of Wisconsin-Milwaukee extracted \$183,553 for an "administrative fee" from the \$7,050 per student payment to the independent, non-instrumentality charters. Expanding university-chartered schools would mean fewer education funds reaching the classroom.

November 17, 2005

TO: Members  
Wisconsin Legislature

FROM: Bob Lang, Director

SUBJECT: 2005-06 General School Aids Amounts for All School Districts

In response to requests from a number of legislators, this office has prepared information on the amount of general school aids to be received by each of the 426 school districts in 2005-06. This memorandum describes the three types of aid funded from the general school aids appropriation and the reductions made to general school aid eligibility related to the Milwaukee and Racine charter school program and the Milwaukee parental choice program. The attachment provides data on each school district's membership, equalized value, shared costs and general school aids payment, based on the October 15, 2005, equalization aid estimate prepared by the Department of Public Instruction (DPI).

### General School Aids

General school aids include equalization, integration (Chapter 220), and special adjustment aids. In 2005-06, \$4,613.9 million from the general fund is appropriated for general school aids. Of the total amount of funding provided, including adjustments, 420 school districts are eligible for \$4,517.9 million in equalization aid, 28 districts are eligible for \$87.8 million in integration aid and 48 districts are eligible for \$8.2 million in special adjustment aid.

**Equalization Aid.** The current three-tiered cost sharing formula was enacted in 1995 Act 27 and first applied to equalization aids paid in 1996-97. The equalization aid formula is calculated using school district data (membership, shared costs and equalized valuations) from the prior school year. There are three guaranteed valuations used in the equalization formula that are applied to three different expenditure levels.

**Primary Tier.** The first tier is for shared costs up to the primary cost ceiling of \$1,000 per member. State aid on these primary shared costs is calculated using a statutorily guaranteed valuation of \$1,930,000 per member, and is based on a comparison of the school district's equalized valuation per member to the \$1,930,000. State aid equals the amount of costs that would be funded

by the missing portion of the guaranteed tax base. Every district whose equalized valuation per member is below \$1,930,000 receives at least the primary aid amount; primary aid cannot be reduced by negative aid generated at the secondary or tertiary aid levels. This feature of the formula is referred to as the "primary aid hold harmless."

*Secondary Tier.* The second tier is for shared costs that exceed \$1,000 per member but are less than the secondary cost ceiling, which is equal to \$7,972 in 2005-06. The secondary cost ceiling is set equal to 90% of the prior year statewide shared cost per member. The state's sharing of secondary costs is calculated using the secondary guaranteed valuation. The secondary guarantee is not set statutorily, but is placed at a level that generates equalization aid entitlements that are equal to the total amount of funding available for distribution. In 2005-06, the secondary guaranteed valuation is \$1,211,095.

*Tertiary Tier.* The third tier is for shared costs that exceed the secondary cost ceiling of \$7,972 per member in 2005-06. State aid on tertiary shared costs is calculated using the statewide average equalized valuation per member, which is \$442,182 in aid year 2005-06. If a school district's tertiary aid is a negative number, this amount is deducted from its secondary aid. As noted above, if the sum of a district's secondary and tertiary aid is a negative number, this amount is not deducted from its primary aid amount.

The tertiary guarantee is tied to the average property tax base per member to reflect statewide changes in property value and enrollment. It is set at an amount lower than the secondary guarantee so that the state's share will be lower on costs above the secondary cost ceiling. The tertiary guarantee feature of the equalization aid formula is intended to serve two purposes. First, it serves as a disincentive for higher spending levels by causing districts to receive aid at much lower levels for costs incurred above the ceiling, or lose aid attributable to those costs if a district's per member equalized value is greater than the tertiary guarantee. Second, it attempts to narrow the per pupil spending disparities among school districts by redistributing aid to districts that spend at lower levels.

For most school districts, equalization aid is the only type of general school aid received. Seven districts, however, had a per pupil equalized value above the primary guaranteed valuation. These districts are not eligible to receive equalization aid in 2005-06, but do receive special adjustment aid. The seven districts are Boulder Junction J1, Fontana J8, Geneva J4, Gibraltar Area, Linn J6, Phelps, and Washington.

*Integration Aid.* Under the integration aid program (commonly called Chapter 220 after the 1975 session law), the state provides funds as an incentive for districts to voluntarily improve racial balance within and between school districts. To be eligible, a school district must transfer pupils between "attendance areas" or districts with certain concentrations of minority or nonminority pupil populations. Integration aid is funded through the same appropriation as equalization aid. Since the program acts as a "first draw" from that appropriation, payments are not subject to proration.

Integration aid is calculated through two different formulas depending upon whether a pupil is transferred within a school district (**intradistrict**) or from one school district to another (**interdistrict**). Under both formulas, school districts receive state aid based on the number of pupils transferred in the prior school year.

*Intradistrict Transfer Aid.* State aid is based on the school district's equalization aid per pupil multiplied by 25% of the number of eligible transfer pupils. The same formula is used to compute state aid for desegregation plans using merged attendance areas (school pairing). As part of the neighborhood schools initiative in 1999 Act 9, a "hold harmless" was established on the amount of intradistrict aid that would be received by Milwaukee Public Schools (MPS), which is generally equal to the greater of: (a) the 1998-99 aid amount (\$32.9 million); or (b) the actual aid entitlement generated under the formula.

*Interdistrict Transfer Aid.* The state provides financial support to both the district which accepts the transfers (the "receiving" district) and the district from which the transfers came (the "sending" district).

The receiving district is paid an amount equal to its average net cost per pupil for each transfer accepted. This is calculated by taking the number of pupils transferred into the school district in the previous school year times the school district's net school cost divided by the sum of membership plus the number of transfer pupils in the prior year.

The sending school district can count each pupil transferred to another district as 0.75 member for general school aid purposes, which is commonly referred to as "sender" aid. However, a separate integration aid payment is not calculated for sending districts; instead, the district receives these funds as part of its equalization aid payment.

*Special Adjustment Aid.* The state provides additional general school aid to districts to cushion the effect of reductions in general school aid from one year to the next, commonly referred to as a "hold harmless" payment. These aids are fully funded from the general school aids appropriation. A district is guaranteed a specific percentage of its prior year's payment of general school aid, including equalization, integration and special adjustment aid, thus limiting a district's annual decline in general school aid. The hold harmless aid insures that a district's general school aid payment is no less than 85% of its prior year level.

*Prior Year Adjustments.* In calculating general school aids each year in October, DPI makes adjustments that are necessary based on the prior year's final general aid eligibility, which is calculated annually in June. The June eligibility amount may differ from the prior October's eligibility amount because of modifications in school district aid factors due to further data collection or auditing. In 2005-06, 357 school districts will receive positive prior year aid adjustments totaling over \$2.3 million, 19 school districts will receive negative prior year aid adjustments totaling nearly \$2.3 million, and 50 districts will receive no prior year aid adjustment.

## **Milwaukee and Racine Charter School Program and Milwaukee Parental Choice Program**

The Milwaukee and Racine charter school program and the Milwaukee parental choice program are funded from separate GPR sum sufficient appropriations established for each of the programs.

Under the Milwaukee and Racine charter school program, the City of Milwaukee, UW-Milwaukee, and UW-Parkside operate or contract to operate charter schools, and DPI pays the operators of these charter schools a statutorily-determined per pupil amount each year (\$7,519 for 2005-06). By law, DPI is required to proportionally reduce the general school aids for which each of the 426 school districts is eligible by an amount totaling the estimated payments under the program. Based on the October 15, 2005, general school aids estimate, in 2005-06, general school aids statewide will be reduced by a total of \$35.5 million for the charter program. Each district's general school aids will be reduced proportionately by 0.8% to generate a total statewide amount of \$35.5 million. The Department calculates this reduction individually for each type of general school aid. Under revenue limits, school districts may levy property taxes to make up for the amount of revenue lost due to these aid reductions.

Under the Milwaukee parental choice program, the state pays a statutorily-determined per pupil amount for children from low-income families to attend, at no charge, participating private schools in the City of Milwaukee. The maximum per pupil payment for 2005-06 is \$6,351. By law, DPI is required to reduce the general school aids for which MPS is eligible by 45% of the total cost of the choice program. Under revenue limits, MPS can levy to make up for the aid reduction. Thus, the general fund pays 55% of the choice program and MPS pays for 45%. Based on the October 15, 2005, general school aids estimate, in 2005-06, MPS's general school aids will be reduced by \$42.2 million, or 6.2%. Other than MPS, all school districts' aid payments and property tax levies are not affected by the choice program.

After the aid reductions for the charter and choice programs, the net amount of funding paid for school district general school aids is \$4,536.3 million, which provides \$4,443.9 million for equalization aid, \$84.2 million for integration aid and \$8.2 million for special adjustment aid.

### **Description of the Attachment**

The attachment provides general school aids information for each of the state's 426 school districts for 2005-06, based on the October 15, 2005, aid calculation completed by DPI. Specifically, the attachment provides the following information:

Column 1: School district name, listed alphabetically;

Column 2: 2004-05 membership;

Column 3: 2004-05 value per member, adjusted for union high school and K-8 districts;

- Column 4: 2004-05 shared cost per member;
- Column 5: 2005-06 equalization aid eligibility, including prior year adjustments;
- Column 6: 2005-06 integration aid eligibility, including prior year adjustments;
- Column 7: 2005-06 special adjustment aid eligibility, including prior year adjustments;
- Column 8: Total general school aids reduction for the Milwaukee parental choice program in 2005-06;
- Column 9: Total general school aids reduction for the Milwaukee and Racine charter school program in 2005-06;
- Column 10: Total net 2005-06 general school aids payment, including equalization, integration and special adjustment aids, all prior year adjustments and all choice and charter reductions.

Public Hearing - 11-29-05

SB 377 - Alberta  
then

testimony mostly about choices, preparedness,  
post secondary education  
accountability

Experiments in education  
add ~~one~~ more chartering authority

6 nat'l edu goals in 1990  
expanded to eight

2000 - first in world in math & science  
did not happen

US 15 year olds - 28th in world in math & science

70% of 4th & 8th not proficient in reading science & math

Charter school best solution for moving ahead

↳ I disagree - Udeman - UW independent UW Charter School  
limits of parental choice, school districts not innovative

quality education for student, family, & community

Competition should be for everyone because of global economy

AB 303 - Jaegge read testimony - no questions

AB 589 - Andy Lamb's office  
CBC vaccine for meningococcal disease

Can schools post on website too?  
Internet best place to distribute  
packets  
amendments are ok

~~AB 589~~ Gail Bailey - mother  
did not know anything about the disease  
hardest part of the death  
her son would not want that to happen  
this bill is the answer  
sharing of the disease, don't share germs  
education and identifying signs

SB 410 - disruptive students in class  
bill mostly a clarification, sometimes depends on administrators

Jeff Pelt removal is a placement issue  
don't think this is a real current problem  
larger issue - statute, violation, etc

SB 411 - Luther no questions

SB 412 - League of Mumps Idiots
