4 tax credit for businesses.

### *Analysis by the Legislative Reference Bureau*

This bill creates an income tax and franchise tax credit for businesses that pay tuition for an individual to attend a university, college, or technical college. Sole proprietorships, corporations, and insurers may claim the credit. Partnerships, limited liability companies, and tax-option corporations compute the credit but pass it on to the partners, members, and shareholders in proportion to their ownership interests. The credit is an amount equal to 1) 50 percent of the tuition paid by a business for an individual to attend school in a taxable year, if the individual is enrolled in a degree-granting program; and 2) 75 percent of the tuition paid by a business for an individual to attend school in a taxable year, if the individual is enrolled in a degree-granting program and if the individual's taxable income is not more than 185 percent of the federal poverty line. If the credit claimed by a business exceeds the business's tax liability, the state will not issue a refund check, but the business may carry forward any remaining credit to subsequent taxable years.

**SENATE BILL 152**
