The Safe Routes to School program is funded only from federal and local funds, not from state funds. To receive federal funds, a project must meet certain federal criteria. The attached draft requires a grant paid from federal funds. Do you want to specify that the grant must be made only if the project qualifies for federal funding under the program?

Please note that this amendment may be challenged as a private or local law. Under article 4, section 18, of the Wisconsin Constitution, legislation that is specific to any person, place, or thing must be enacted as single-subject legislation unless the subject matter relates to a state responsibility of statewide dimension and its enactment will have direct and immediate effect on a specific statewide concern or interest.
