1. AQUATIC INVASIVE SPECIES EARMARK

SDC: Direct DNR to provide \$25,000 water resources account SEG in 2007-08 from the aquatic invasive species grants program to the City of Oshkosh for invasive species education, prevention, and control activities in Miller's Bay and the adjacent water area in Lake Winnebago.

The Joint Finance substitute provides \$1.8 million annually for aquatic invasive species grants. This provision would earmark \$25,000 in 2007-08 for Oshkosh.

Hi Robin- For that \$25,000 water resources account SEG in 2007-08 to the City of Oshkosh for invasive species education, prevention and control activities in Miller's Bay and the adjacent water are in Lake Winnebago, they **do not want to require a local match**. So we'll need to do a notwithstanding on that one as well so that they wouldn't be subject to the 60% of cost cap if, for instance, the total project cost was \$25,000 or something. Let me know if you have questions on that. Thanks again,

-Erin
