### *Analysis by the Legislative Reference Bureau*

Under current law, the Higher Educational Aids Board (HEAB) administers various student loan programs under which certain percentages of the loans are forgiven for each year that a loan recipient is employed in certain professions after the completion of the recipient's program of study. Those programs include a program under which loans are forgiven after the recipient has been employed in this state as a nurse, a program under which loans are forgiven after the recipient has been employed as a teacher in the Milwaukee Public Schools, a program under which loans are forgiven after the recipient has been employed in this state as a teacher of visually impaired pupils or as an orientation and mobility instructor, and a program under which loans are forgiven after the recipient has been employed as a teacher in a school district in this state in which minority students constitute at least 29 percent of the membership of the school district.

This bill creates a loan program, to be administered by HEAB, to defray the cost of tuition, fees, and expenses for residents of this state who are enrolled in a program at the University of Wisconsin School of Medicine and Public Health or at the Medical College of Wisconsin, Inc., leading to the degree of doctor of medicine and who agree to practice medicine for not less than six years in a health professional shortage area,

VH Page 297, line 100 after that line insert

**ASSEMBLY BILL 90**

which is defined under current law as an area designated by the federal Department of Health and Human Services as having a shortage of medical care professionals. The maximum amount of a loan that a person may receive during any fiscal year is \$10,000 and the maximum amount that a person may receive under the program is \$50,000. After a loan recipient has completed his or her program of study, HEAB must forgive 10 percent of the loan's principal and interest after the first full year, 10 percent of the loan's principal and interest after the second full year, 10 percent of the loan's principal and interest after the third full year, 10 percent of the loan's principal and interest after the fourth full year, 20 percent of the loan's principal and interest after the fifth full year, and 20 percent of the loan's principal and interest after the sixth full year that the recipient has been employed full time as a doctor of medicine in a health professional shortage area.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
