### *Analysis by the Legislative Reference Bureau*

Under current law, the Higher Educational Aids Board (HEAB) administers various student loan programs under which certain percentages of the loans are forgiven for each year that a loan recipient is employed in certain professions after the completion of the recipient's program of study. Those programs include programs under which loans are forgiven after the recipient has been employed as a nurse in this state, as a teacher in the Milwaukee Public Schools, as a teacher of visually impaired pupils or as an orientation and mobility instructor in this state, and as a teacher in a school district in this state in which minority students constitute at least 29 percent of the membership of the school district.

This bill creates a loan program, to be administered by HEAB, to defray a portion of the cost of tuition, fees, and expenses for persons who are enrolled at an accredited school of veterinary medicine in this state in a curriculum leading to a doctor of veterinary medicine degree and who agree to engage full time in this state for not less than six years in a veterinary medicine practice in which not less than 75 percent of the revenue produced by the loan recipient is derived from providing veterinary medical services to animals that are raised to produce food for human consumption (food-producing animal veterinary practice). The maximum amount

# Page 297 line 100 after that line insert

**ASSEMBLY BILL 291**

of a loan that a person may receive during any fiscal year is \$12,500 and the maximum amount that a person may receive under the program is \$50,000. After a loan recipient has completed his or her curriculum of study, HEAB must forgive 10 percent of the loan's principal and interest after the first full year, 10 percent of the loan's principal and interest after the second full year, 10 percent of the loan's principal and interest after the third full year, 10 percent of the loan's principal and interest after the fourth full year, 20 percent of the loan's principal and interest after the fifth full year, and 20 percent of the loan's principal and interest after the sixth full year that the recipient has been employed full time in this state in a food-producing animal veterinary practice.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

*The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:*
