

Fiscal Estimate Narratives

DATCP 2/5/2007

LRB Number 07-0652/1	Introduction Number AB-0011	Estimate Type Original
Description Disclosure of social security numbers by persons who purchase goods from sellers of goods at retail and providing a penalty		

Assumptions Used in Arriving at Fiscal Estimate

This bill will prohibit sellers of goods at retail from requesting a customer to disclose their social security number.

The Office of Privacy Protection in the Bureau of Consumer Protection will likely see an increase in telephone calls and consumer complaints on this issue. However, this bill does not fall under the departments authority as it would reside in s.134 of which the department has very limited authority. Therefore the department anticipates a minimal amount of in-depth investigations that would require additional staff time.

It is believed that the department will be able to absorb the increased costs as the department will have no enforcement authority under this bill.

Long-Range Fiscal Implications
