Description The immobilization or removal, impoundment, and disposal of motor vehicles for multiple nonmoving traffic violations		

Assumptions Used in Arriving at Fiscal Estimate

PROVISIONS OF THE BILL

Current law allows local parking authorities to direct DOT to suspend registration on a vehicle involved in unpaid non-moving traffic violations, or refuse registration on any vehicles owned by the person, or both. This is under the Traffic Violation and Registration Program (TVRP).

This bill allows municipalities or counties another method to enforce parking violations. Under this bill, municipalities or counties may enact an ordinance providing for immobilization or impoundment of vehicles owned by "habitual parking violators" (any vehicles owned by the person, not just the vehicle involved in a violation). A habitual parking violator is a person who has received 3 or more non-moving traffic violations, more than 28 days previously, that remain unpaid or the person has not scheduled an appearance in court.

The municipality or county must give certain notice to the vehicle owner, and may combine the notice with any other notice that the municipality or county provides to the vehicle owner. A vehicle may be immobilized or impounded if parked – legally or illegally – on a street, highway, or publicly owned or leased parking facility within the municipal corporate limits.

The bill specifies the method that an owner may retrieve the vehicle; and if an owner does not retrieve the vehicle within a certain time, that the municipality may dispose of the vehicle.

FISCAL IMPACT

This bill has no impact on DOT or on the Transportation Fund.

Local fiscal impact is indeterminate. The cost and the revenue to a local government would depend on how aggressively the government pursued this option for enforcing non-moving traffic violations.

Long-Range Fiscal Implications
