**State of Wisconsin
Legislative Audit Bureau**

November 28, 2007

The Honorable, the Legislature:

We have completed an evaluation of state and local governments' compliance with election laws, as required by [2003 Wisconsin Act 265](#). The Elections Board enforces election laws and supports and trains the municipal clerks who register voters and administer elections. Early next year, however, the Government Accountability Board will replace and assume the duties of the Elections Board.

Federal law requires Wisconsin to implement an electronic statewide voter registration system, in part to prevent ineligible individuals from voting. Available information indicates there were few problems with ineligible individuals voting in November 2006; however, ongoing problems with the electronic system continue to make it difficult to identify such individuals.

Federal and state laws require voting systems and polling places to be accessible to individuals with disabilities. However, we noted numerous problems when we visited 36 polling places in 20 municipalities on Election Day in November 2006. As a result, we question whether some polling places are adequately accessible.

We have followed up on the recommendations in our 2005 evaluation of voter registration and provide a number of new recommendations for improving the administration of elections and enhancing the statewide voter registration system. We also note that additional efforts are needed to ensure that municipal clerks and other local election officials receive statutorily required training in administering elections effectively and appropriately.

We appreciate the courtesy and cooperation extended to us by the Elections Board and local election officials. A response from the Elections Board follows the appendices.

Sincerely,
 JANICE MUELLER
 State Auditor

**State of Wisconsin
 Department of Administration**

November 30, 2007

The Honorable, the Legislature:

This report is transmitted as required by s. 20.002(11)(f), Wisconsin Statutes, (for distribution to the appropriate standing committees under s. 13.172(3), Wisconsin Statutes) and confirms that the Department of Administration has found it necessary to exercise the “temporary reallocation of balances” authority provided by this section in order to meet payment responsibilities and cover resulting negative cash balances during the month of October 2007.

On October 1, 2007, the **Dry Cleaner Environmental Response Fund** cash balance closed at a negative \$55 thousand. This negative balance continued through October 27, 2007, when the fund’s cash balance closed at a positive \$11 thousand. The **Dry Cleaner Environmental Response Fund** cash balance reached its intra-month low of a negative \$58 thousand on October 4, 2007. The negative balance was due to the difference in the timing of revenues and expenditures.

On October 1, 2007, the **Wisconsin Health Education Loan Repayment Fund** cash balance closed at a negative \$2 thousand. This negative balance continued through October 31, 2007, when the fund’s cash balance closed at a negative \$2 thousand. The negative balance was due to the difference in the timing of revenues and expenditures.

On October 4, 2007, the **Worker’s Compensation Fund** cash balance closed at a negative \$1.7 million. This negative balance continued through October 31, 2007, when the fund’s cash balance closed at a negative \$1.8 million (its intra-month low). The negative balance was due to the difference in the timing of revenues and expenditures.

On October 29, 2007, the **Injured Patients and Families Compensation Fund** cash balance closed at a negative \$51.3 million (its intra-month low). This negative balance continued through October 31, 2007, when the fund’s cash balance closed at a negative \$46.2 million. The negative balance was due to the transfer of \$71.5 million to the General Fund per [2007 Wisconsin Act 20](#), and the pending liquidation of fund securities necessary to offset this shortfall.

The Dry Cleaner Environmental Response Fund, Wisconsin Health Education Loan Repayment Fund, Worker’s Compensation Fund, and the Injured Patients and Families

Compensation Fund shortfalls were not in excess of the statutory interfund borrowing limitations and did not exceed the balances of the funds available for interfund borrowing.

The distribution of interest earnings to investment pool participants is based on the average daily balance in the pool and each fund’s share. Therefore, the monthly calculation by the State Controller’s Office will automatically reflect the use of these temporary reallocations of balance authority, and as a result, the funds requiring the use of the authority will effectively bear the interest cost.

Sincerely,
 MICHAEL L. MORGAN
 Secretary

Referred to joint committee on **Finance**.
