

2007 ASSEMBLY BILL 533

October 16, 2007 - Introduced by Representatives SCHNEIDER and GRIGSBY.
Referred to Committee on Labor and Industry.

- 1 **AN ACT to create** 103.12, 106.54 (8) and 111.91 (2) (im) of the statutes; **relating**
2 **to:** employer monitoring of employee electronic mail usage.

Analysis by the Legislative Reference Bureau

Current law does not regulate employer monitoring of employee electronic mail (e-mail) usage. This bill prohibits any employer, including the state, from monitoring any e-mail message sent or received by an employee unless the employee sends or receives the message through a computer owned by the employer and the employer: 1) provides written notice to the employee of the employer's policy regarding the monitoring of employee e-mail usage when the employee is hired and not less than once each year after that; and 2) provides written notice to the employee of any change in that policy not less than 30 days before the effective date of the change in policy. The notice must include a statement of the purposes for which employee e-mail messages are monitored and the frequency with which that monitoring is conducted and a statement for the employee to sign acknowledging that the employee has received and understands the notice.

The bill also prohibits an employer from monitoring any e-mail message sent or received by an employee because the employee has exercised or is exercising, or because the employer believes that the employee has exercised, is exercising, or may exercise, his or her right to form, join, or assist a labor organization, to bargain collectively, and to engage in lawful, concerted activities for the purpose of collective bargaining or other mutual aid or protection. In addition, the bill provides that an employee has a reasonable expectation of privacy in the content of any personal e-mail message sent or received by the employee and prohibits an employer from

ASSEMBLY BILL 533

monitoring the content of such a message except as necessary to determine whether the message is personal or work related or to protect any trade secret or other confidential business information of the employer.

The bill provides, however, that an employer is not prohibited from monitoring the number or frequency of the personal e-mail messages sent or received by an employee to ascertain the efficiency or productivity of the employee or from using any electronic or other device to manage the e-mail messages coming into or going out of the employer's computerized communication system solely for the purpose of system maintenance, security, or protection and not for the purpose of monitoring the e-mail messages sent or received by any particular employee.

Finally, under the bill, an employee whose e-mail messages are monitored in violation of the bill or who is discharged or discriminated against for opposing a practice prohibited under the bill, filing a complaint or attempting to enforce any right granted under the bill, or testifying or assisting in any action or proceeding to enforce any right under the bill may file a complaint with the Department of Workforce Development (DWD), and DWD must process the complaint in the same manner as employment discrimination complaints are processed under current law, which processing may include the ordering of back pay, reinstatement, or compensation in lieu of reinstatement.
