DOA:.....Grinde - Special charges for residential energy efficiency improvement loans

**FOR 2009-11 BUDGET -- NOT READY FOR INTRODUCTION**

Do Not Gen

1

AN ACT ... relating to: authorizing political subdivisions to make residential

2

energy efficiency improvement loans and impose special charges for the loans.

***Analysis by the Legislative Reference Bureau***

Under current law, a municipality (a city, village, or town) is authorized to impose a special charge against real property for current services rendered by allocating all or part of the cost of the service to the property served. A "service" under current law includes snow and ice removal, weed elimination, sidewalks or curb and gutter repair, garbage and refuse disposal, recycling, storm water management, tree care, and other similar services that are not specified in the definition. Special charges are not payable in installments. If a special charge is not paid within the time specified by the municipality, the special charge is delinquent and becomes a lien on the property against which it is imposed.

This bill authorizes a political subdivision (a municipality or county) to make a loan to a resident of the political subdivision for making or installing an energy efficiency improvement or a renewable resource application to the resident's residential property. The bill also authorizes the political subdivision to collect the loan repayment as a special charge. A special charge that is imposed for such a loan repayment may be collected in installments and may be included as a charge on the resident's property tax bill even if the special charge is not delinquent.

For further information see the *local* fiscal estimate, which will be printed as an appendix to this bill.
