ENVIRONMENT

OTHER ENVIRONMENT

Current law imposes several fees that are based on the weight of solid waste disposed of at a landfill or other waste disposal facility. This type of fee is often called a tipping fee. Currently, the environmental repair tipping fee is \$1.60 per ton of solid waste, other than mining waste and certain kinds of high-volume industrial waste. The environmental repair tipping fee is deposited into the environmental fund. This bill increases the environmental repair tipping fee to \$5 per ton.

In addition, this bill changes the funding source for making the principal and interest payments on bonds issued by this state for certain water pollution abatement purposes from the general fund to the environmental fund.

Currently, the recycling tipping fee is \$4 per ton of solid waste disposed of, other than certain kinds of high-volume industrial waste. The recycling tipping fee is deposited into the recycling and renewable energy fund. This bill increases the recycling tipping fee to \$5 per ton.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

OTHER ENVIRONMENT

Current law imposes several fees that are based on the weight of solid waste disposed of at a landfill or other waste disposal facility. This type of fee is often called a tipping fee. Currently, the environmental repair tipping fee is \$1.60 per ton of solid waste, other than mining waste and certain kinds of high-volume industrial waste. The environmental repair tipping fee is deposited into the environmental fund. This bill increases the environmental repair tipping fee to \$5 per ton.

In addition, this bill changes the funding source for making the principal and interest payments on bonds issued by this state for certain water pollution abatement purposes from the general fund to the environmental fund.

Currently, the recycling tipping fee is \$4 per ton of solid waste disposed of, other than certain kinds of high-volume industrial waste. The recycling tipping fee is deposited into the recycling and renewable energy fund. This bill increases the recycling tipping fee to \$5 per ton.

DOA:.....Miner, BB0320 - Increase tipping fees and change bonding funding source

FOR 2009-11 BUDGET -- NOT READY FOR INTRODUCTION

1 AN ACT ...; relating to: the budget.

Analysis by the Legislative Reference Bureau

ENVIRONMENT

OTHER ENVIRONMENT

Current law imposes several fees that are based on the weight of solid waste disposed of at a landfill or other waste disposal facility. This type of fee is often called a tipping fee. Currently, the environmental repair tipping fee is \$1.60 per ton of solid waste, other than mining waste and certain kinds of high-volume industrial waste. The environmental repair tipping fee is deposited into the environmental fund. This bill increases the environmental repair tipping fee to \$5 per ton.

In addition, this bill changes the funding source for making the principal and interest payments on bonds issued by this state for certain water pollution abatement purposes from the general fund to the environmental fund.

Currently, the recycling tipping fee is \$4 per ton of solid waste disposed of, other than certain kinds of high-volume industrial waste. The recycling tipping fee is deposited into the recycling and renewable energy fund. This bill increases the recycling tipping fee to \$5 per ton.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
