Proposed Change

Eliminate these mandated reports.

Background and Rationale for the Change

A number of statutorily mandated reports are no longer necessary because the purpose for which the report was implemented has been achieved, the report duplicates information that is already published on the Department website or in other reports, or the information is communicated to the legislature in other ways. Eliminating the mandated reports will enable the Department to use its

staff resources more effectively by redeploying staff to higher priority activities. The specific rationale related to the elimination of each report is provided below.

DHFS Mandated Reports	
<i>Report</i>	<i>Reason for Elimination</i>
Impact of CIP 1A on state employees	Legislature receives and reviews information on the CIP IA program, including position adjustments, as part of the biennial budget bill
Recommendations of Council on Physical Disabilities	Council communicates to the legislature directly on matters of interest on an as-needed basis.
Hunger	Information in the report duplicates information in another report published by the Department: information on hunger and food insecurity is included in the Department's evaluation of the Healthiest Wisconsin 2010 plan
BadgerCare	Information in the report duplicates information in another report published by the Department: the federally-required quarterly and annual BadgerCare reports. In addition, BadgerCare enrollment and quality information is available on the Department website.
Certified MA pharmacists	The purpose for which the report was established has been met. The report was intended to determine whether there were changes in the number of certified MA pharmacists after the implementation of SeniorCare in 2002. Initial reports demonstrated that there were no changes; further reporting is not needed.
Short-term care nursing admissions	The purpose for which the report was established has been met. The report was established to provide information to the Board on Aging and Long-term care. The Board has indicated that it no longer finds this report useful.
Class A nursing home violations	The purpose for which the report was established has been met. The mandated report on Class A violations was implemented in 1998 to assess the effect of increased forfeiture amounts. The change in 1998 forfeitures is no longer a determining factor in annual changes in Class A violations; therefore, further reporting is not needed.
Rehabilitation Requests under Caregiver Background Check program	The purpose for which the report was established has been met. The report was intended to assess the initial implementation of the Caregiver Background Check program in 1998 and determine if changes were needed. Since 1998, the Legislature has made several changes to the program, based on the initial experience. The program is now stable and beyond its initial implementation period; therefore, further reporting is not needed.
Birth to Three	Information in the report duplicates information in another published report: the Interagency Coordinating Council Birth to Three Report
Alcoholism	Information will be available through another published source: national outcomes for state programs, along with substance use survey data will be available on the federal SAMHSA website.
Emergency Health Services (EMS) Plan	Department plans to publish State EMS Plan on the DHFS website along with the minutes of the EMS Council
Statewide Immunization	Department plans to publish this information on the DHFS website
Newborn Hearing Screening	The purpose for which the report was created has been achieved. Report was established to determine if 88% of deliveries are in hospitals with newborn screening program. This goal was achieved several years ago; the current rate is over 99%.
Birth Defect Prevention and Surveillance	Department plans to publish on the DHFS website the status of the birth defect registry, which is the subject of this report.

Tobacco Use Cessation	Information in the report duplicates information in another report published by the Department: the Burden of Tobacco.

To Laurie Palchik:

Please review this draft to make sure it complies with your intent. Some statutory sections required more than just a report, and I have only eliminated the requirement to submit the report. Please let me know if you want additional requirements deleted.

The requirement to submit the adoption services report, in s. 46.03 (18) (a), was deleted in last session's budget. Two sections were renumbered. Section 46.76 is now s. 49.172, and s. 146.53 is now s. 256.08. I have deleted the requirement to submit these reports under the current statutory sections.

Section 46.29 (1) (f) was repealed in the 2001 budget, but s. 46.29 (1) (fm) requires a report on parking spaces for disabled motorists. Would you like this section repealed instead?

> I repealed s. 50.065 (5d) (a) 4. because it seemed to be in existence only for purposes of the report. Please contact me if you do not want this repealed.

Laurie -- Thanks for sharing the draft. Here are our comments:

1. Point's in Tamara's drafter's notes:
 - a. FYI, regarding the report under s.46.76/s.49.172, a separate draft for the biennial budget is transferring WIC and related programs back to DHS, so the report reference may be changing in that separate draft.
 - b. Deleting s. 46.29(1)(fm) is consistent with our intent.
 - c. Deleting s.50.065(5d)(a)4 is fine.
2. Please delete all of s. 253.115(2). We would like to eliminate both the requirement to gather the data and the report itself.
