Thanks, Chris. I spoke with Commerce, and they have no need for the council after the loan program leaves. Could you please move the council out off Commerce?

Currently, there is a 13-member rural health development council attached to Commerce (s. 15.157 (8)). The council's functions (s. 560.185) relate to the loan programs as well as to the rural hospital loan guarantee program. The council also generally advises Commerce about rural health issues.

Should the council continue to play a role in the loan programs after the programs leave Commerce? If so, the council could be moved out of Commerce, but then what should happen to the council's current duties advising Commerce? If not, who should assist the office of rural health vis-a-vis the loan programs?

These are good questions. I've spoken to those in our office who work with the UW. They agree that it makes more sense to transfer the program to the UW System than specifically to the Office.

Hi Jenna. I'm working on this draft with Chris Sundberg, and I have a question for you. Currently, Commerce administers these loan programs, although it looks like the UW Office of Rural Health does most of the heavy lifting under contract with Commerce. If we are transferring the programs to the Office, we need to decide what kinds of powers the Office has. For example, do you want the Office to be able to promulgate rules to administer the programs? Is it most like an attached board, with its own rule-making authority? Or do you want the Board of Regents to oversee the Office, similar to the way a division is typically structured within a department? In the latter case, Commerce's administrative rules that relate to the programs should be transferred to the UW System, not to the Office. In fact, in that case, we would transfer the programs to the UW System, which of course could delegate any duties or responsibilities to the Office.

If you have any questions about the above, let me know. Thanks.

Does Commerce receive federal funds by way of the Governor for anything else? The way it's drafted now (with help from the eminent Peter Grant), the current Commerce approps--except (o)--are renumbered into UW.

Thanks, Chris. No positions will be transferred, only funds. The two appropriations at Commerce that will be going away are a PR-S appropriation under s. 20.143 (1) (kr) and a PR-F appropriation under 20.143 (1) (o). The UW system should already have a PR-F appropriation equipped to take the federal funds related to this program, but they will be creating a PR-S appropriation.

I'm basically done with this, except for a couple little pieces. This draft will include nonstatutory provisions that transfer from Commerce to the UW-System things like contracts, rules and order, and pending matters. Are there also employees/positions, assets and liabilities, and/or personal property that also need to be transferred? FYI, each loan program will get its own set of nonstats. ✓

I am hoping not to create another FED appropriation unless there is some peculiar aspect of this program that would necessitate such an appropriation. The UW incidentally is very much opposed to creating new appropriations in general. I did create a new PR-S appropriation based on an e-mail from Peter Grant on the assumption tribal gaming funds need their own appropriations.

How much FED are we talking about?

University of Wisconsin System

① AN ACT ...; relating to: the budget

*Analysis by the Legislative Reference Bureau*  
**COMMERCE AND ECONOMIC DEVELOPMENT**

The Department of Commerce

**COMMERCE**

(Commerce) currently repays portions of certain educational loans made to physicians, dentists, and certain other health care providers who agree to practice for three years in certain areas of the state that have been federally designated as having a shortage of providers. Current law requires Commerce to contract with the Office of Rural Health of the Department of Professional and Community Development of the University of Wisconsin Medical School (Office) for administration of the repayment programs. The Rural Health Development Council (Council) advises Commerce regarding the repayment programs and regarding the delivery of rural health care.

This bill transfers the repayment programs to the Office, transfers the Council to the University of Wisconsin System, and eliminates the Council's duties that are unrelated to the repayment programs.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

*The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:*
