

Fiscal Estimate Narratives

DOT 10/15/2009

LRB Number 09-0721/1	Introduction Number SB-321	Estimate Type Original
Description Operation of neighborhood electric vehicles		

Assumptions Used in Arriving at Fiscal Estimate

Additional signage may be required at points where municipalities choose to prohibit NEV crossings of STH routes within their jurisdictions. The signage would be the responsibility of the municipality. The Department estimates costs of \$200 per sign (for sign, post and installation), or \$400 per crossing. It cannot be determined how many crossings municipalities may prohibit statewide.

Long-Range Fiscal Implications

There is no anticipated long-range fiscal impact on state revenues or liabilities.
