**EDUCATION**

**PRIMARY AND SECONDARY EDUCATION**

Current law generally limits the increase in the total amount of revenue per pupil that a school district may receive from general school aids and property taxes in a school year to the amount of revenue increase allowed per pupil in the previous school year increased by the percentage change in the consumer price index. Several adjustments to the revenue limits are permitted. For example, if a school board adopts a resolution to do so, the school district's revenue limit is increased by the amount spent by the school district in the second previous school year to pay the salary and fringe benefit costs of school nurses employed by the school board and school nurses providing nursing services in the school district under a contract with the school board. Current law also provides for revenue limit adjustments for the costs of school safety equipment and the compensation costs of security officers and for pupil transportation costs.

This bill eliminates each of the revenue limit adjustments described above.

For further information see the *local* fiscal estimate, which will be printed as an appendix to this bill.
