please regenerate

1 AN ACT *to repeal* 283.35 (1m) (c) and (d); *to renumber and amend* 283.45 (2)
2 (f); *to amend* 283.01 (8), 283.01 (12) (a), 283.01 (13), 283.15 (4) (a) 1. (intro.),
3 283.17 (2), 283.45 (1), 283.45 (2) (a), 283.45 (2) (b), 283.45 (2) (c), 283.45 (2) (d),
4 283.45 (2) (e), 283.53 (2) (a) (intro.), 283.53 (2) (b), 283.53 (2) (c), 283.53 (2) (d),
5 283.53 (2d) (intro.), 283.53 (2h), 283.53 (2m), 283.55 (2) (a), 283.63 (1) (intro.)
6 and 283.63 (1) (b); and *to create* 283.01 (1m), 283.31 (4c), 283.31 (4h), 283.31
7 (4m), 283.31 (4s), 283.31 (5m), 283.31 (9), 283.45 (2) (am), 283.45 (2) (d) 4. to 9.,
8 283.45 (2) (f) 1. to 3., 283.45 (2) (g), 283.45 (4), 283.53 (2) (g) and 283.53 (3) (g)
9 of the statutes; **relating to:** regulation of wastewater discharges and granting
10 rule-making authority.

Analysis by the Legislative Reference Bureau

The federal Clean Water Act (CWA) includes a program for issuing permits for discharges of water pollutants from point sources, such as pipes. Under the CWA, the federal Environmental Protection Agency (EPA) may approve the issuance of these permits by a state if EPA determines that the state has a program that meets requirements in the CWA and EPA regulations under the CWA. Currently, the

BILL

standards of performance that are applicable to new sources of water pollution

Department of Natural Resources (DNR) administers an EPA-approved permit program for point sources of water pollution (referred to as the Wisconsin pollution discharge elimination system or WPDES).

This bill makes various changes in the statutes for WPDES that primarily conform those statutes to provisions in the CWA and EPA regulations under the CWA. The changes relate, among other things, to ~~including schedules of compliance in WPDES permits, generally expressing limits on discharges in terms of mass and including limits for each discharge point, situations in which best management practices must be required in permits,~~ and procedures and standards for modifying or terminating permits.

Current law authorizes DNR to issue a general WPDES permit authorizing certain vessels to discharge ballast water. The law specifies fees for coverage under a ballast water general permit that are applicable until June 30, 2013. The law requires DNR to promulgate rules setting fees applicable after June 30, 2013, based on the costs of administering and enforcing a general permit for ballast water discharges.

This bill makes the statutory fees for a ballast water general permit permanent and eliminates the requirement for DNR to promulgate rules setting fees.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

X
1
2
3
4
5
6
7
8
9
10
11

X SECTION 1. 283.01 (1m) of the statutes is created to read:
283.01 (1m) "Concentrated aquatic animal production facility" means a hatchery, fish farm, or other facility that meets the criteria in 40 CFR part 122, appendix C, or an aquatic animal production facility that the department determines, after an inspection of the facility, is a significant contributor of pollution to waters of the state, considering all of the following:
(a) The location and quality of the receiving waters.
(b) The holding, feeding, and production capacities of the facility.
(c) The quantity and nature of the pollutants reaching the waters of the state.
(d) Other relevant factors.

SECTION 2. 283.01 (8) of the statutes is amended to read:

BILL

1 283.01 (8) "New source" means any point source the construction of which
2 commenced after the effective date of ~~applicable effluent limitations or federal~~
3 standards of performance under 33 USC 1316 that are applicable to the point source
4 or after the proposal, under 33 USC 1316, of federal standards of performance that
5 are applicable to to the point source, if the federal standards of performance take
6 effect within 120 days of their proposal.

7 **SECTION 3.** 283.01 (12) (a) of the statutes is amended to read:

8 283.01 (12) (a) A discernible, confined and discrete conveyance, including but
9 not limited to any pipe, ditch, channel, tunnel, conduit, well, discrete fissure,
10 container, rolling stock, concentrated animal feeding operation, concentrated
11 aquatic animal production facility, landfill leachate collection system, or vessel or
12 other floating craft from which pollutants may be discharged either into the waters
13 of the state or into a publicly owned treatment works except for a conveyance that
14 conveys only storm water.

15 **SECTION 4.** 283.01 (13) of the statutes is amended to read:

16 283.01 (13) "Pollutant" means any dredged spoil, solid waste, incinerator
17 residue, filter backwash, sewage, garbage, refuse, oil, sewage sludge, munitions,
18 chemical wastes, biological materials, radioactive substance, heat, wrecked or
19 discarded equipment, rock, sand, cellar dirt and industrial, municipal and
20 agricultural waste discharged into water.

X 21 **SECTION 5.** 283.15 (4) (a) 1. (intro.) of the statutes, as affected by 2011 Wisconsin
22 ✓ Act 32, is amended to read:

23 283.15 (4) (a) 1. (intro.) The secretary shall approve all or part of a requested
24 variance, or modify and approve a requested variance if the department has obtained
25 approval from the federal environmental protection agency for the variance and if

BILL

1 the permittee demonstrates, by the greater weight of the credible evidence, that
2 attaining the water quality standard is not feasible because:

3 SECTION 6. 283.17 (2) of the statutes is amended to read:

4 283.17 (2) ~~Any~~ If the modification of a point source of a discharge having a
5 thermal component, ~~the modification of which~~ is commenced after October 18, 1972,
6 ~~and which~~ if the point source, as modified, meets the most stringent effluent
7 limitation established under s. 283.13 ~~or sub. (1) and this subsection, where, and if~~
8 the limitation assures protection and propagation of a balanced indigenous
9 population of shellfish, fish and wildlife in and on the water into which the discharge
10 is made, the point source shall not be subject to any more stringent effluent
11 limitation with respect to the thermal component of its discharge during either the
12 10-year period beginning on the date of completion of the modification or the period
13 of depreciation or amortization of the facility for the purpose of section 167 or 169 of
14 the internal revenue code, whichever ends first.

X 15 SECTION 7. 283.31 (4c) of the statutes is created to read:

16 283.31 (4c) The department shall require a permittee to implement best
17 management practices to control or abate the discharge of pollutants if any of the
18 following applies:

- 19 (a) Best management practices are authorized under 33 USC 1314 (e) for the
20 control of toxic pollutants and hazardous substances from ancillary industrial
21 activities.
- 22 (b) Numeric effluent limitations are infeasible.
- 23 (c) The department determines that the practices are reasonably necessary to
24 achieve effluent limitations or effluent standards.

X 25 SECTION 8. 283.31 (4h) of the statutes is created to read:

BILL

1 283.31 (4h) (a) In a permit issued under this section, the department shall
2 specify effluent limitations, effluent standards, and effluent prohibitions for each
3 outfall or discharge point, unless the department determines under sub. (4c) (b) that
4 numeric effluent limitations are infeasible or under par. (b) that it is infeasible or
5 impractical to impose effluent limitations or effluent standards at the outfall or
6 discharge point.

7 (b) If the department determines that it is infeasible or impracticable to impose
8 effluent limitations or effluent standards at the outfall or discharge point, the
9 department may, in a permit issued under this section, impose effluent limitations
10 or effluent standards on internal waste streams before mixing with other waste
11 streams or cooling water. If the department decides to impose effluent limitations
12 or effluent standards on internal waste streams all of the following apply:

13 1. In the permit, the department shall require internal waste streams to be
14 monitored for compliance.

15 2. In the fact sheet under s. 283.45, the department shall specify the basis for
16 its determination that exceptional circumstances made limitations on internal
17 waste streams necessary.

18 X SECTION 9. 283.31 (4m) of the statutes is created to read:

19 283.31 (4m) (a) For each pollutant that is limited in a permit issued under this
20 section, the department shall express the limitations, standards, or prohibitions in
21 terms of mass, except as provided in pars. (b) to (d).

22 (b) Paragraph (a) does not apply to pH, temperature, radiation, or any other
23 pollutant that cannot appropriately be expressed by mass.

24 (c) Paragraph (a) does not apply if the applicable standard or limitation is
25 expressed in terms of units of measurement other than mass.

BILL

1 (d) If the department imposes a technology-based limitation on a case-by-case
2 basis for a pollutant and the department determines that expressing the limitation
3 in terms of mass is not feasible because the mass of the pollutant cannot be related
4 to a measure of operation, then the department may express the limitation in
5 another unit of measurement, as long as permit conditions ensure that dilution will
6 not be used as a substitute for treatment.

7 (e) The department may promulgate a rule, in accordance with an exception
8 under par. (b), (c) or (d), that specifies circumstances in which a mass limit is not
9 required for a specific pollutant or discharge.

X 10 X **SECTION 10.** 283.31 (4s) of the statutes is created to read:

11 283.31 (4s) If a portion of the discharge from a point source is disposed of into
12 a publicly owned treatment work or by application to land, the department shall
13 adjust limitations and standards under sub. (3) (a) to (c) to reflect that disposal.

X 14 X **SECTION 11.** 283.31 (5m) of the statutes is created to read:

15 283.31 (5m) (a) The department may, as provided in this subsection, include
16 in a permit a schedule of compliance leading to compliance with the federal Water
17 Pollution Control Act, 33 USC 1251 to 1387, this chapter, and rules promulgated
18 under this chapter.

19 (b) In a schedule of compliance under this subsection, the department shall
20 require compliance as soon as possible, but not later than the applicable statutory
21 deadline under the federal Water Pollution Control Act, 33 USC 1251 to 1387.

22 (c) The department may include a schedule of compliance in the first permit
23 issued for a new source or a new discharger, as defined in 40 CFR 122.2, only if
24 necessary to allow a reasonable opportunity to attain compliance with requirements

BILL

1 issued or revised after the beginning of construction but less than 3 years before
2 beginning the relevant discharge.

3 (d) The department may include a schedule of compliance for a recommencing
4 discharger, as defined in 40 CFR 122.2, only if necessary to allow a reasonable
5 opportunity to attain compliance with requirements issued or revised less than 3
6 years before recommencement of the discharge.

7 (e) Except as provided in par. (f), if the department includes in a permit a
8 schedule of compliance that is longer than one year from the date of permit issuance
9 or reissuance, the department shall include interim requirements and dates for
10 achievement of those requirements. The time between interim dates may not exceed
11 one year, except that for a schedule of compliance for sewage sludge use and disposal,
12 the time between interim dates may not exceed 6 months.

13 (f) If the time necessary for completion of an interim requirement, such as
14 construction of a control facility, is more than one year and if completion of the
15 interim requirement is not readily divisible into stages for completion, the
16 department shall include interim dates for submission of reports of progress toward
17 completion of the interim requirements and indicate a projected completion date.

18 (g) The department shall require that the permittee, no later than 14 days after
19 each interim date and the final date for compliance, notify the department in writing
20 of its compliance or noncompliance with the interim or final requirements or, if par.

21 (f) applies, submit progress reports.

22 (h) The department may promulgate rules concerning compliance schedules for
23 specific pollutants under this chapter.

24 **SECTION 12.** 283.31 (9) of the statutes is created to read:

BILL

1 283.31 (9) (a) 1. Except for any toxic effluent standards and prohibitions and
2 standards for sewage sludge use or disposal, compliance with a permit during its
3 term constitutes compliance, for purposes of enforcement, with 33 USC 1311, 1312,
4 1316, 1317, 1328, and 1345 (a) and (b) and provisions of this chapter, and rules
5 promulgated under this chapter, that implement those federal statutes. However,
6 a permit may be modified, terminated, or revoked and reissued during its term for
7 cause as provided in s. 283.53 (2).

8 2. Compliance with a permit condition that implements a particular standard
9 for sewage sludge use or disposal under s. 283.82 is an affirmative defense in any
10 enforcement action brought for a violation of that standard for sewage sludge use or
11 disposal.

12 (b) The issuance of a permit does not convey any property rights of any sort, or
13 any exclusive privilege.

14 **SECTION 13.** 283.35 (1m) (c) and (d) of the statutes are repealed.

15 **SECTION 14.** 283.45 (1) of the statutes is amended to read:

16 283.45 (1) For the application for every discharge which has a total volume of
17 more than 500,000 gallons on any day of the year, except a storm water discharge for
18 which a permit is issued under s. 283.33 for which a permit is required under 33 USC
19 1342, including permits for the disposal of sewage sludge, the department shall,
20 following public notice when it prepares a draft permit, prepare and send to any
21 person who so requests, a fact sheet concerning the application described in the
22 public notice that sets forth the principal facts and the significant methodological
23 and policy questions considered by the department. The department shall send the
24 fact sheet to any person who requests a copy.

25 ~~SECTION 15.~~ 283.45 (2) (a) of the statutes is amended to read:

Handwritten initials "L" and "X" in the right margin.

BILL

1 283.45 (2) (a) A sketch or detailed description of the location of the discharge
2 described in the application;

3 X **SECTION 16.** 283.45 (2) (am) of the statutes is created to read:

4 283.45 (2) (am) A brief description of the type of the facility or activity that is
5 the subject of the application.

6 X **SECTION 17.** 283.45 (2) (b) of the statutes is amended to read:

7 283.45 (2) (b) A quantitative description of the types and quantities of the
8 discharges described in the application;

9 X **SECTION 18.** 283.45 (2) (c) of the statutes is amended to read:

10 283.45 (2) (c) A statement of the tentative determination to issue or deny the
11 permit application;

12 X **SECTION 19.** 283.45 (2) (d) of the statutes is amended to read:

13 283.45 (2) (d) If a determination to issue a permit is made, ~~then~~ all of the
14 following information ~~shall also be included~~:

- 15 1. The proposed effluent limitation for those pollutants proposed to be limited;
- 16 2. A description of any proposed schedule of compliance, including interim
17 dates and requirements, for meeting the proposed effluent limitations;
- 18 3. A brief description of any other proposed special conditions ~~which~~ that will
19 have a significant impact upon the discharge described in the application;

20 X **SECTION 20.** 283.45 (2) (d) 4. to 9. of the statutes are created to read:

21 283.45 (2) (d) 4. Any calculations or other necessary explanation of the
22 derivation of specific effluent limitations and effluent conditions or standards for
23 sewage sludge use or disposal, including a citation to the applicable effluent
24 limitation guideline, performance standard, or standard for sewage sludge disposal,

BILL

1 and reasons why they are applicable or an explanation of how alternate effluent
2 limitations were developed.

3 5. If the draft permit contains any of the following provisions, an explanation
4 of why the provisions are applicable:

5 a. Limitations to control toxic pollutants under 40 CFR 122.44 (e).

6 b. Limitations on internal waste streams under s. 283.31 (4h) (b).

7 c. Limitations on indicator pollutants.

8 d. Limitations set on a case-by-case basis under 40 CFR 125.3 (c) (2) or (3) or
9 33 USC 1345 (d) (4).

10 e. Limitations to meet the criteria for permit issuance under 40 CFR 122.4 (i).

11 f. Waivers from monitoring requirements granted under 40 CFR 122.44 (a).

12 6. For a draft permit for a treatment work owned by a person other than this
13 state or a municipality, an explanation of the department's decision on regulation of
14 users under 40 CFR 122.44 (m).

15 7. For permits that include a sewage sludge application plan a brief description
16 of how each of the required elements of the land application plan are addressed in
17 the permit.

18 8. Reasons why any requested variances or alternatives to required standards
19 do or do not appear justified.

20 9. A brief summary of the basis for other draft permit conditions, including
21 references to applicable statutory or regulatory provisions.

22 X SECTION 21. 283.45 (2) (e) of the statutes is amended to read:

23 283.45 (2) (e) A brief description of the uses for which the receiving waters have
24 been classified, and of the applicable water quality standards and effluent
25 standards;

BILL

9

X

X

X

X

1 X **SECTION 22.** 283.45 (2) (f) of the statutes is renumbered 283.45 (2) (f) (intro.)

2 and amended to read:

3 283.45 (2) (f) (intro.) A more detailed description of the procedures for the
4 formulation of final determinations than that given in the public notice, including
5 all of the following:

6 X **SECTION 23.** 283.45 (2) (f) 1. to 3. of the statutes are created to read:

7 283.45 (2) (f) 1. The beginning and end dates of the comment period under s.
8 283.39 (2) and the address where comments will be received.

9 2. The procedures for requesting a hearing and the nature of the hearing.

10 3. Any other procedures by which the public may participate in the formulation
11 of the final decision.

12 X **SECTION 24.** 283.45 (2) (g) of the statutes is created to read:

13 283.45 (2) (g) The name and telephone number of a person to contact for
14 additional information.

15 X **SECTION 25.** 283.45 (4) of the statutes is created to read:

16 283.45 (4) **RULES.** The department may promulgate rules concerning the
17 preparation and contents of fact sheets under this section.

18 **SECTION 26.** 283.53 (2) (a) (intro.) of the statutes is amended to read:

19 283.53 (2) (a) (intro.) Any permit issued by the department under s. 283.31 or
20 283.33 may, at the written request of an interested person or upon the department's
21 initiative and after an opportunity for hearing, be modified, suspended, terminated,
22 or revoked and reissued, in whole or in part, for cause consistent with 40 CFR 122.62
23 and 122.64, including but not limited to:

24 **SECTION 27.** 283.53 (2) (b) of the statutes is amended to read:

BILL**SECTION 27**

1 283.53 (2) (b) Whenever, on the basis of any information available to it, the
2 department finds that there is cause for modifying, ~~suspending~~ terminating, or
3 revoking and reissuing a permit, in whole or in part, the department shall notify the
4 permittee by certified mail or personal service of its intention to modify, ~~suspend~~
5 terminate, or revoke and reissue the permit, in whole or in part. Such notice shall
6 specify the information upon which the department relies, and if the department
7 intends to modify the permit, shall explain the modifications which the department
8 intends to make in the permit.

9 **SECTION 28.** 283.53 (2) (c) of the statutes is amended to read:

10 283.53 (2) (c) The department shall also notify the U.S. environmental
11 protection agency, the U.S. army corps of engineers, any affected state, any
12 interested agency of this state, and any interested members of the public of its
13 intention to modify, ~~suspend~~ terminate, or revoke and reissue a permit. Such notice
14 shall incorporate the terms of the notice sent to the permittee and shall be circulated
15 to members of the public in accordance with s. 283.39 (1).

16 **SECTION 29.** 283.53 (2) (d) of the statutes is amended to read:

17 283.53 (2) (d) The department may hold a public hearing on a proposed permit
18 modification, ~~suspension~~ termination, or revocation and reissuance if the
19 department determines that there is a significant public interest in holding such a
20 hearing or upon the petition of 5 or more persons. The petition shall indicate the
21 interest of the petitioners and the reasons why a hearing is warranted.

22 **SECTION 30.** 283.53 (2) (g) of the statutes is created to read:

23 283.53 (2) (g) The department shall comply with the provisions of 40 CFR 124.5
24 that are applicable to a state program when modifying, terminating, or revoking and
25 reissuing a permit.

BILL

1 **SECTION 31.** 283.53 (2d) (intro.) of the statutes is amended to read:

2 283.53 (2d) (intro.) The department may, with the consent of the permittee,
3 modify a permit issued under s. 283.31 or 283.33 without following the procedures
4 in sub. (2) (b) to (f) (g) in order to do any of the following:

5 **SECTION 32.** 283.53 (2h) of the statutes is amended to read:

6 283.53 (2h) The department may, with the consent of the permittee, ~~revoke~~
7 terminate a permit issued under s. 283.31 or 283.33 without following the procedures
8 in sub. (2) (b) to (f) (g).

9 **SECTION 33.** 283.53 (2m) of the statutes is amended to read:

10 283.53 (2m) The department may, upon request of the permittee, revise or
11 modify a schedule of compliance in an issued permit if it determines that the revision
12 or modification is necessary because of the happening of an event over which the
13 permittee has little or no control. The first revision made under this subsection
14 during the term of a permit need comply only with sub. (2) (c). Subsequent requests
15 shall be subject to sub. (2) (b) to (f) (g).

16 **SECTION 34.** 283.53 (3) (g) of the statutes is created to read:

17 283.53 (3) (g) The department shall comply with 33 USC 1342 (o) when
18 establishing effluent limitations in a reissued or modified permit. The department
19 may promulgate rules to implement this paragraph.

20 **SECTION 35.** 283.55 (2) (a) of the statutes is amended to read:

21 283.55 (2) (a) Any duly authorized officer, employee or representative of the
22 department shall have right to enter upon or through any premises in which an
23 effluent source that is required to be covered by a permit issued under s. 283.31 or
24 283.33 is located or in which any records required to be maintained by under this
25 section or s. 283.33 are located, and may at reasonable times have access to and copy

BILL**SECTION 35**

1 any records, inspect any monitoring equipment or method required by under this
2 section or s. 283.33, and sample any effluents which the owner and operator of such
3 source is required to sample under this section or s. 283.33.

4 **SECTION 36.** 283.63 (1) (intro.) of the statutes is amended to read:

5 283.63 (1) (intro.) Any permit applicant, permittee, affected state or 5 or more
6 persons may secure a review by the department of any permit denial, modification,
7 ~~suspension~~ termination, or revocation and reissuance, the reasonableness of or
8 necessity for any term or condition of any issued, reissued or modified permit, any
9 proposed thermal effluent limitation established under s. 283.17 or any water
10 quality based effluent limitation established under s. 283.13 (5). Such review shall
11 be accomplished in the following manner:

12 **SECTION 37.** 283.63 (1) (b) of the statutes is amended to read:

13 283.63 (1) (b) The department shall hold a public hearing at the time and place
14 designated in the notice of hearing. At the beginning of each such hearing the
15 petitioner shall present evidence to the department which is in support of the
16 allegation made in the petition. All interested persons or their representative shall
17 be afforded an opportunity to present facts, views or arguments relevant to the issues
18 raised by the petitioners, and cross-examination shall be allowed. The department
19 shall consider anew all matters concerning the permit denial, modification,
20 ~~suspension~~ termination, or revocation and reissuance. No person may be required
21 to appear by attorney at any hearing under this section.

Becky,

Please feel free to release this draft to Representative Mursau. I believe his office will be making a request.
Thanks.
