Current law requires that any major highway project, unlike other construction projects undertaken by DOT, receive the approval of the Transportation Projects Commission (TPC) and the legislature before the project may be constructed. This bill adds four major highway projects recommended by TPC to the current list of enumerated projects already approved for construction.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

I have made some minor clarifying changes to the descriptions of the enumerated projects. Please review these changes to ensure they meet your intent. Also existing s. 84.013 (3) (ye), stats., appears to cover the entire route covered by s. 84.013 (3) (bp), as created by this draft. I assume the newly enumerated project is a wholly different project from the existing one. Please let me know, however, if you believe any changes are necessary.
