HIGHWAYS

Under current law, the state may contract up to \$225,000,000 in public debt to fund major interstate bridge projects. A major interstate bridge project is defined to mean "a project involving the construction or reconstruction of a bridge on the state trunk highway system, including approaches, that crosses a river forming a boundary of the state and for which this state's estimated cost share is at least \$100,000,000." Under current law, DOT may not encumber or expend any funds collected under this bonding authorization unless the state receives federal funds that are designated by the federal government for a major interstate bridge project and that cover at least \$75,000,000 of the state's share of the project's cost. This bill eliminates this general obligation bonding authority.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

2 SECTION 1. 20.395 (6) (aq) of the statutes is amended to read:

Aaron and Eric,

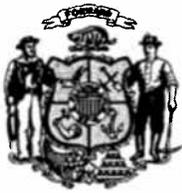

Not sure who this request was assigned to, but we'd like to completely change its direction.

Instead of eliminating the bonding authority and references to it under s.84.016, we'd like to eliminate the requirement under s. 84.016(3), which prohibits the use of the bonding revenue unless a federal amount is designated for the bridge. The bonding authority should remain.

Let me know if you have questions.

Thanks,

Tyler
