Analysis by the Legislative Reference Bureau

Currently, with limited exceptions, each state agency, including the UW System, must submit for approval of the Building Commission any contract for engineering, design, or construction of, or for the reconstruction, remodeling, or expansion of, a building, structure, or facility if the project cost exceeds \$150,000, and if the project cost exceeds \$500,000, the project must be enumerated in the Authorized State Building Program, which is set forth by law. Currently, DOA manages all engineering, design, and construction work for state agencies, including the UW System, but DOA may delegate its management authority to an agency for a specific project. If management authority for a project is delegated, the agency to

which authority is delegated is subject to the same requirements that apply to DOA if DOA manages the project directly. With limited exceptions, DOA must provide public notice of proposed work and let contracts to the lowest responsible bidder. Plans and specifications for all work on UW projects are subject to approval of DOA. DOA may assess and collect from state agencies, including the UW System, a construction project management fee to cover its costs in managing each project. With limited exceptions, each engineering, design, or construction contract for a state building, structure, or facility is subject to approval of the secretary of administration and, if the contract involves an expenditure of more than \$60,000, the approval of the governor.

This bill deletes DOA's and the governor's responsibility for management of, supervision of, and approval of plans, specifications, and contracts for, any building, structure, or facility to be constructed, reconstructed, remodeled, or expanded for the UW if the project involves a cost of less than \$500,000 and is funded entirely from the proceeds of gifts or grants made to the UW System. The bill also deletes the requirement for approval of the Building Commission on any such project if the cost of the project is less than \$500,000 and the project is funded entirely from the proceeds of gifts or grants made to the UW System. Under the bill, the UW System is not required to adhere to any of the bidding requirements that currently apply to DOA with respect to any such project and is not subject to assessment by DOA for its construction management services.

Currently, the UW System may not accept a gift or grant of real property valued in excess of \$30,000 without approval of the Building Commission.

This bill requires approval of the Building Commission only for a gift or grant of real property valued in excess of \$150,000.

The bill also directs the Board of Regents of the UW System to promulgate, by rule, bidding procedures to be used by the UW System for building projects that are exempted from compliance with the bidding procedures for state building projects prescribed under current law, subject to disapproval by either the Building Commission or the Joint Committee on Finance.

In addition, the bill provides that the authority of DOA to supervise state vehicle fleet management does not preclude the Board of Regents of the UW System from accepting gifts of motor vehicles.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
