

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRB-1965/1dn
MGG:kjf:ph

April 21, 2011

I have tried to make the concept of “at the ready” more precise and less vague in this draft. Vague language can make it difficult to enforce a prohibition such as this. Due to the various different types of mechanisms and safety features related to firing crossbows, I cannot make this language more precise without talking to someone who is knowledgeable in this field. I would be happy to talk with someone if you wish.
