Summary: Legislation suggestion for floating toilet issue

Category: DNR Local Issues
Issue: DNR Local Issues
Position: None

Status: Open

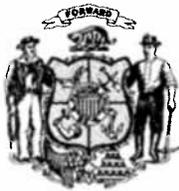

Contact Type: E-Mail

Description: Sheila, here is proposed language for the floating toilet exemption on the Lower St. Croix. This was drafted with input from National Park Service staff. This will really help resolve what gets to be a pretty disgusting situation come the end of summer. Thanks,

Scott

S. 30.12(1g)(L): Floating toilets located within the federally administered area of the Lower St. Croix National Scenic Riverway, provided the toilets are placed by the national park service along federally owned shorelines, attached to piers owned and placed by the national park service, and comply with the definition and technical specifications for such toilets in associated national park service plans. Notwithstanding sub. (1g)(intro.), the requirement that structures placed under sub. (1g) be located in an area other than an area of special natural resource interest shall not apply to such toilets.

PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION

2011 BILL

In
8/18

1 **AN ACT** ^{Gen} **relating to:** a permit exemption for the placement of a pier containing
2 a floating toilet facility in the St. Croix National Scenic Riverway.

Analysis by the Legislative Reference Bureau

Current law generally prohibits any person from depositing any material or placing any structure upon the bed of a navigable water without a permit issued by the Department of Natural Resources. Under current law, certain deposits and structures are exempt from this permit requirement. For example, a riparian owner (a person who owns land adjacent to a navigable water) may place a pier on the bed of a navigable water if the pier meets certain size and location requirements.

This bill creates another exemption to the general permit requirement. Under * this bill, no permit is required for the placement of a pier in a federally administered area of the St. Croix National Scenic Riverway if the pier is placed by the * national park service, the pier contains a floating toilet facility, and the floating toilet facility * meets specifications approved by national the park service.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

3 **SECTION 1.** 30.12 (1n) of the statutes is created to read:
4 30.12 (1n) FLOATING TOILET FACILITIES. (a) In this subsection, "national park
5 service" means the national park service, federal department of the interior.

1 (b) The placement of a pier that meets all of the following requirements is
2 exempt from the permit requirements under this section:

3 1. The pier contains a floating toilet facility that meets technical specifications
4 approved by the national park service for floating toilet facilities.

5 2. The pier is owned and placed by the national park service along a
6 federally^gowned shoreline in a federally administered area of the St. Croix National
7 Scenic Riverway.
