Subject: RE: Senate companion for LRB 4116/2
Becky,

We need to request a simple amendment to AB 626. We recently learned that the DNR in Wisconsin went above and beyond the EPA vapor recovery regulation and applied to all areas and not just to "non-attainment" zones. Apparently, the bill as drafted would only get rid of the regulation for the non-attainment zones. What we want to do is direct the DNR to get rid of it for everyone – across the board.

If you have questions on this, I would recommend that you contact Pat Stevens at the DNR. He is the one who brought the issue up and he may be able to provide some additional insight.

Let me know if you have any questions.

Thanks!
