Description					

#### Description

The Wisconsin Small Company Advancement program, requiring the Wisconsin Economic Development Corporation to issue bonds and notes to raise capital for investment by venture capital funds in Wisconsin businesses, allowing refunds for the early stage seed and angel investment tax credits, authorizing positions for the University of Wisconsin, and making appropriations.

## **Assumptions Used in Arriving at Fiscal Estimate**

This fiscal estimate pertains only to the provisions of the bill that change the Angel and Early Stage Seed Investment credits from non-refundable to refundable.

Under current law, a taxpayer may claim non-refundable Early Stage Seed and Angel Investment tax credits for the taxpayer's investments in qualified new businesses. The bill provides that the Early Stage Seed and the Angel Investment credits are refundable for taxable years beginning after December 31, 2010.

### Fiscal estimate:

Non-refundable credits are considered reductions in tax revenue. Refundable credits are considered increases in appropriations. In general, changing a credit from non-refundable to refundable would involve an increase in revenue (technically a reduction in revenue reduction) and an increase in appropriations.

Assuming that refunds will be claimed for unused credits carried forward from taxable years beginning before January 1, 2011, and assuming similar amounts of refundable Angel Investment credits and modest growth in the amounts of Early Stage Seed credits are certified by the Department of Commerce as were certified as nonrefundable credits, the bill would result in an increase in revenue of an estimated \$11.8 million in FY 2012, \$10.1 million in FY 2013, and \$7.7 million in FY 2014. In addition, the bill would result in increased appropriations of an estimated \$3.5 million in FY 2012, \$13.3 million in FY 2013, \$10.6 million in FY 2014.

The bill would have no effect on the general fund in the long term, as the total amount of credits claimed would not be affected. The bill only affects the timing of the effect to the general fund and the mechanism through which the general fund is affected (revenue reduction vs. appropriations).

#### **Long-Range Fiscal Implications**
