

## Fiscal Estimate Narratives

DOT 10/14/2011

LRB Number	11-2900/1	Introduction Number	AB-0305	Estimate Type	Original
<b>Description</b> permits for overweight vehicles or vehicle combinations transporting sealed containers or vehicles in international trade					

### Assumptions Used in Arriving at Fiscal Estimate

#### BILL SUMMARY

This bill allows DOT to issue overweight permits for vehicles or vehicle combinations (vehicles) that have six or more axles and that are transporting sealed loads. The bill defines a "sealed load" as a container or vehicle, being transported in international trade that has been sealed with a tamper-evident seal. The permit does not authorize the operation of any vehicle at a maximum gross weight in excess of 90,000 pounds. Permit applications must be made electronically to DOT utilizing an electronic process prescribed by DOT.

#### ONE-TIME FISCAL IMPACT

Data processing modification, at a cost of \$40,000, is required to modify our electronic permitting system. The system must account for axle spacing, the total number of axles, and the gross vehicle weight. This permitting process must contain an evaluation process not required by similar permits administered by the Department.

#### ON-GOING ANNUAL FISCAL IMPACT

It is not possible to accurately project how many permits DMV will issue annually. The following example is compiled solely to illustrate departmental costs and revenues associated with the permitting process.

#### Permit costs:

Single trip: \$30

Multiple trip: \$300

#### Quantity:

Single trip: 1000

Multiple trip: 300

#### Revenue:

Single Trip: \$30,000

Multiple trip: \$90,000

Total: \$120,000

#### Corresponding FTE Costs:

Trip Quantity: 1,300

FTE Minutes: 19,500

FTE Hours: 325

FTE: 0.19

FTE cost/year: \$11,194.61

### Long-Range Fiscal Implications

See above.
