| <b>Description</b><br>Requiring the Department of Workforce Development to notify the local workforce development board when a claimant applies for unemployment insurance benefits |                                    |                               |

**Assumptions Used in Arriving at Fiscal Estimate**

JCW and WDB would be notified of initial unemployment insurance claims via a weekly report. The weekly generation and delivery of this report could be automated. The only cost to the state would be the one-time development cost automating the report. This cost is expected to be negligible.
