

Fiscal Estimate Narratives

DNR 11/21/2011

LRB Number 11-3119/1	Introduction Number SB-290	Estimate Type Original
Description Acquisition of land in the Niagara Escarpment corridor		

Assumptions Used in Arriving at Fiscal Estimate

The bill adds a sixth priority which includes acquisition of land in the Niagara Escarpment corridor to be considered when acquiring land under the Knowles-Nelson Stewardship program or when granting funds to assist with a land purchase.

Any land acquisition resulting from this change would occur under existing or future appropriation for such activities. Therefore, the bill would have no fiscal impact at either the state or local government level.

Long-Range Fiscal Implications
