

Fiscal Estimate Narratives

DCF 3/12/2012

LRB Number 11-3920/1	Introduction Number SB-507	Estimate Type Original
Description Requiring the Child Abuse and Neglect Prevention Board to emphasize nonmarital parenthood as a contributing factor to child abuse and neglect		

Assumptions Used in Arriving at Fiscal Estimate

Under current law, the Child Abuse and Neglect Prevention Board conducts various activities relating to the prevention of child abuse and neglect, including cooperating with the Department of Children and Families in promoting public awareness campaigns and disseminating information about child abuse and neglect. This bill requires the Child Abuse and Neglect Prevention Board to emphasize nonmarital parenthood as a contributing factor to child abuse and neglect in its activities.

This bill could result in additional calls to the Bureau of Milwaukee Child Welfare or county child welfare agencies, which could result in additional staff time to investigate allegations of abuse or neglect. However, because the number of potential new calls to child welfare agencies resulting from this bill is unknown, the potential fiscal impact cannot be determined.

Long-Range Fiscal Implications
