

WISCONSIN LEGISLATIVE COUNCIL AMENDMENT MEMO

2011 Assembly Bill 558

**Assembly Substitute
Amendment 1 and Assembly
Amendment 1 to Assembly
Substitute Amendment 1**

Memo published: February 27, 2012

Contact: Rachel Letzing, Senior Staff Attorney (266-3370)

READ TO LEAD

Assembly Substitute Amendment 1

The substitute amendment creates the Read to Lead Development Council in the Office of the Governor. The council consists of the Governor, the State Superintendent of Public Instruction, four legislators, and the following members appointed by the Governor and serving at his or her pleasure:

- One practicing preschool teacher.
- Three persons representing the state's philanthropic community.
- Three persons representing this state's business community.
- One person representing the Wisconsin State Reading Association.
- One person representing the Wisconsin Reading Coalition.
- One person representing the International Dyslexia Association.
- One person representing Wisconsin Literacy, Inc.
- One person representing the Wisconsin Library Association.
- One person representing this state's research community.

- One person representing an organization that has as its mission service to children with various types of disabilities.

The substitute amendment specifies that the members of the Read to Lead Development Council appointed by the Governor must be appointed for three-year terms and provides that the initial members of the council will serve staggered terms.

Assembly Amendment 1 to Assembly Substitute Amendment 1

The amendment does not alter this provision of the substitute amendment.

TEACHER PREPARATION PROGRAMS

Assembly Substitute Amendment 1

The substitute amendment requires the Department of Public Instruction (DPI) to work in consultation with the Governor's office, the University of Wisconsin System, chairpersons and ranking members of the Senate and Assembly education committees, and the Wisconsin Association of Independent Colleges and Universities to determine how the performance of recent graduates of teacher education programs will be used to evaluate the teacher education programs, including by defining "recent graduate" and identifying measures of performance.

The substitute amendment requires each teacher education program located in this state to, beginning on July 1, 2012, and annually thereafter, provide DPI with a list of graduates, and their graduation dates, from each term or semester of the program's most recently completed academic year. The substitute amendment requires DPI to include this information about graduates of teacher education programs in the statewide student information system.

The substitute amendment also requires DPI to develop a system through which information about teacher performance and the evaluation of teacher education programs will be made available to the public. The substitute amendment requires DPI, beginning in the 2013-14 school year, to report for each teacher education program the rate of passage on first attempt of students and graduates of the program on examinations administered for licensure as a teacher and as an alternative education program teacher, and any other information recommended by DPI in consultation with the entities above, on the system developed as required in the substitute amendment. Beginning in the 2013-14 school year, each teacher education program must prominently display this information on the program's web site and provide this information to persons receiving admissions information to the program.

Assembly Amendment 1 to Assembly Substitute Amendment 1

The amendment makes the following changes to the substitute amendment:

- Removes terms including "graduate" and "recent graduate of an education program in this state," and instead specifies that the requirements in the substitute amendment apply to individuals who have recently completed a teacher preparatory or education program in this state or individuals who have recently completed a teacher

preparatory or education program and who have been recommended for licensure. Therefore, the performance evaluations for teacher education programs and the information that teacher preparation programs must provide will not include individuals who have taken licensure examinations but have not completed a teacher preparation program.

- Removes the requirement that DPI report for each teacher education program the rate of passage on first attempt of students and graduates of the program on examinations administered for licensure, and specifies instead that DPI must report the rate of passage of individuals who have recently completed a teacher preparatory of education program and who have been recommended by the program for licensure.

EDUCATOR EFFECTIVENESS

Assembly Substitute Amendment 1

The substitute amendment requires DPI to develop an educator effectiveness evaluation system (state system) and to develop, by rule, an equivalency process aligned with the state system (equivalency process) to assist school districts in the evaluation of the performance of teachers and principals in the district.

Under the state system, 50% of the total evaluation score assigned to a teacher or principal must be based on measures of student performance, and 50% of the total evaluation score must be based upon the extent to which the teacher's or principal's practice meets standards established under the 2011 Interstate Teacher Assessment and Support Consortium or under the 2008 Interstate School Leaders Licensure Consortium Educational Leadership Policy Standards, respectively. The equivalency process must be based upon the same interstate standards as the state system and must evaluate a teacher with reference to the following four domains: (a) planning and preparation; (b) the classroom environment; (c) instruction; and (d) professional responsibilities and development.

The substitute amendment specifies that teachers and principals evaluated under both the state system and the equivalency process must be placed in one of at least four performance categories. Each school district and independent charter school must begin evaluating teachers and principals using either the state system or the equivalency process in the 2014-15 school year.

Assembly Amendment 1 to Assembly Substitute Amendment 1

The amendment to the substitute amendment removes the requirement that a teacher or principal who is evaluated must be placed in one of at least four performance categories and instead requires placement in one of multiple performance categories.

ASSESSMENTS OF READING READINESS

Assembly Substitute Amendment 1

The substitute amendment requires each school board and each independent charter school annually to assess all pupils in five-year old kindergarten programs for reading readiness beginning in the 2012-13 school year. The substitute amendment specifies that the school board or charter school must use the appropriate norm-referenced assessment of literacy fundamentals selected by DPI and requires DPI to ensure that the assessment evaluates whether a pupil possesses phonemic awareness, rapid naming, and letter sound knowledge. If DPI determines that sufficient moneys are available, the school board and the charter school must also assess all pupils in four-year old kindergarten programs. The school board or charter school must provide a pupil whose assessment indicates that he or she is at risk of reading difficulty with interventions or remedial reading services that are scientifically based.

The substitute amendment specifies that if a pupil's reading assessment indicates that he or she may have a disability, the pupil must be referred for a special education assessment as provided under current law. The substitute amendment further specifies that, if a pupil is enrolled in a special education program, the school board or independent charter school must accommodate that pupil as provided in the pupil's IEP when taking the reading assessment.

The substitute amendment requires a school board or independent charter school to report the results of a pupil's reading assessment to the pupil's parent or guardian.

The substitute amendment appropriates \$800,000 of general purpose revenue to the DPI in fiscal year 2013 to provide school districts and independent charter schools with the assessment of reading readiness.

Assembly Amendment 1 to Assembly Substitute Amendment 1

The amendment to the substitute amendment makes the following changes to the substitute amendment:

- Requires DPI to select an appropriate, valid, and reliable assessment of literacy fundamentals and removes the language that such an assessment must be norm-referenced.
- Requires school boards and charter schools to annually assess each pupil enrolled in kindergarten and removes language specific to four-year old and five-year old kindergarten.
- Removes the requirement that DPI ensure that the assessment evaluates rapid naming.
- Removes the requirement that if a pupil's reading assessment indicates that he or she may have a disability, the pupil must be referred for a special education assessment.

TEACHER LICENSURE

Assembly Substitute Amendment 1

The substitute amendment prohibits DPI from issuing an initial teaching license that authorizes the holder to teach in grades kindergarten to five, in special education, as a reading teacher or as a reading specialist, unless the applicant has passed an examination that evaluates the specified facets of reading development and reading instruction provided in the substitute amendment. This provision first applies to applications for licenses received by DPI on January 1, 2014.

The substitute amendment provides that any teacher who passes the examination must notify DPI in order to have a notation added to the teacher's license indicating that he or she passed the examination.

The substitute amendment specifies that for the examination for initial licensure, points for questions relating to phonics, phonemic awareness, and vocabulary must constitute more than 50% of the maximum number of points attainable on the examination. The substitute amendment also specifies that the passing score on this examination must be 70.5%.

Assembly Amendment 1 to Assembly Substitute Amendment 1

The amendment to the substitute amendment makes the following changes to the substitute amendment:

- Requires an applicant for licensure to pass an examination identical to the Foundations of Reading test administered in 2012 as part of the Massachusetts Tests for Educator Licensure instead of describing the elements of the examination.
- Removes the requirement that points for questions relating to phonics, phonemic awareness, and vocabulary must constitute more than 50% of the maximum number of points attainable on the examination.
- Removes the requirement that the passing score on the examination must be 70.5% and requires DPI to set the passing score of the examination at a level no lower than the passing score used on the Massachusetts test in 2012.

LEGISLATIVE HISTORY

On February 22, 2012, the Assembly Committee on Education recommended adoption of Assembly Amendment 1 to Assembly Substitute Amendment 1 on a vote of Ayes, 7; Noes, 4, and recommended adoption of Assembly Substitute Amendment 1, as amended, on a vote of Ayes, 7; Noes, 4. The committee then recommended passage of the bill, as amended, on a vote of Ayes, 6; Noes, 5.
