348.01 (2) (au) “Drive−away method in saddlemount combination” means a vehicle combination designed and specifically used to tow up to 3 trucks or truck tractors, each connected by a saddle to the frame or 5th−wheel of the forward vehicle of the truck or truck tractor in front of it, and including not more than one fullmount.

(ay) “Fullmount” means a smaller vehicle mounted completely on the frame of either the first or last vehicle in a saddlemount combination.

(bv) “Saddle” means a mechanism that connects the front axle of a towed vehicle to the frame or 5th−wheel of the vehicle in front and functions like a 5th−wheel kingpin connection.

SECTION 2. 348.07 (4) of the statutes is amended to read:

348.07 (4) The secretary shall, by rule, designate the highways to which sub. (2) (f), (fm), and (gm) and s. 348.08 (1) (a) 2. and (e) apply. The designation of highways under this subsection may not be inconsistent with the designation of highways made by the U.S. secretary of transportation under P.L. 97−424, section 411. The secretary may also designate additional highways by rule. In adopting a rule designating other highways, which may include 2−lane highways, the secretary shall specify the factors which resulted in the determination to designate the highways. These factors shall include, but are not limited to, safety, economics, energy savings, industry productivity and competition. Vehicles to which sub. (2) (f), (fm), and (gm) and s. 348.08 (1) (a) 2. and (e) apply may also operate on highways not designated under this subsection for a distance of 15 miles or less in order to obtain access to a highway designated under this subsection or to reach fuel, food, maintenance, repair, rest, staging, terminal or vehicle assembly facilities or points of loading or unloading. The secretary may, by rule, designate an access route of more than 15 miles from a highway designated under this subsection when the longer route provides safer and better access to a location which is within the 15−mile limit. Household goods carriers may operate between highways designated under this subsection and points of loading and unloading.
