Analysis by the Legislative Reference Bureau

STUDENT INFORMATION SYSTEM

Current law directs the Department of Public Instruction (DPI) to develop a proposal for a multiple-vendor student information system (SIS). DPI must submit the proposal to the Joint Committee on Finance (JCF) for its approval. If JCF approves the proposal, DPI must implement it and must ensure that information about pupils enrolled in charter schools and about pupils enrolled in private schools participating in a parental choice program (PCP) is collected and maintained in the SIS. Current law also provides that if the SIS is established, DPI must ensure that within five years, every school district and every charter school is using the SIS, and that every private school participating in a PCP is either using the SIS or is using a system that is interoperable with the SIS. Current law authorizes DPI to promulgate rules establishing a fee for use of the SIS.

This substitute amendment provides that if the SIS is established, DPI must ensure that within five years, every school district and every charter school, other than an independent charter school, is using the system. The substitute amendment also provides that, beginning in the 2015–16 school year, DPI must ensure that every independent charter school and every private school participating in a PCP is either using the SIS or is using a system that is commercially available, capable of providing the information required, and able to obtain pupil identification numbers. If the SIS is established, the substitute amendment allows DPI to promulgate rules establishing a fee for using the SIS.

Finally, the substitute amendment specifies that a private school participating in a PCP is not required to include in the SIS it is using information about pupils who are not attending the private school under the PCP.

SCHOOL AND SCHOOL DISTRICT ACCOUNTABILITY

Current law directs DPI, annually by September 1, to publish a school and school district accountability report that includes the following components:

1. Multiple measures to determine a school's performance or a school district's improvement, including pupil achievement and growth in reading and mathematics; measures of college and career readiness; and gaps in pupil achievement and graduation rates categorized by various factors.

2. An index system to identify a school's level of performance and annually place each school into one of five performance categories.

Current law provides that one year after an independent charter school or a private school participating in a PCP begins using the SIS or a system that is interoperable with the SIS, DPI must include the school in its school accountability report.

This substitute amendment eliminates all of the above provisions and establishes a school and school district accountability system, initially effective in the 2017-18 school year, that is applicable to school districts, public schools, charter schools, and private schools participating in a PCP. The substitute amendment directs DPI to determine a school's and school district's performance in the following areas:

1. Pupil achievement in reading and mathematics.
2. Growth in pupil achievement in reading and mathematics, calculated using a value-added methodology.
3. Gap closure in growth in pupil achievement in reading and mathematics and in graduation rates.
4. Rates of attendance and of high school graduation.

The substitute amendment specifies the information about a school or school district that DPI may use to measure performance in each of the above areas. To the extent feasible, DPI's rating for each school and school district must be calculated with 25 percent of the weight given to each item listed above.

For a private school participating in a PCP, the substitute amendment directs DPI to use for each area only the information that pertains to pupils attending the private school under the PCP.

The substitute amendment requires DPI to issue an annual accountability report for each school and school district that grades the school's or school district's overall performance from A to F.

The substitute amendment directs DPI to provide a school or school district an opportunity to review a preliminary version of a report in order to correct errors.

The substitute amendment allows DPI to downgrade a school's rating if DPI determines that the percentage of pupils taking the statewide assessments is inadequate.

The substitute amendment creates an Academic Accountability Council in DPI to make recommendations to the state superintendent of public instruction (and provide a copy to the appropriate standing committees of the legislature) on the format and makeup of the school accountability report and qualifying score for each grade, on whether a school that has been determined to be failing but demonstrates high-value added growth, as determined by the University of Wisconsin-Madison Value-Added Research Center, should be sanctioned, and on sanction waivers for public schools, described below.

The substitute amendment directs the Legislative Audit Bureau annually to study DPI's methodology for calculating the performance of schools and school districts and report its findings each January to the Joint Legislative Audit Committee.

LOW-PERFORMING SCHOOLS AND SCHOOL DISTRICTS; INTERVENTIONS

Current law requires a school board and DPI to take certain steps if a school or school district is in need of improvement or among the lowest performing, as follows:

1. If DPI determines that a school district has been in need of improvement for four consecutive school years, the school board must:

- a. Employ a standard, consistent, research-based curriculum that is aligned with the state's model academic standards;
- b. Use pupil academic performance data to differentiate instruction to meet individual needs;
- c. Implement a system of academic and behavioral supports and early intervention for pupils; and
- d. Provide additional learning time to address the academic needs of pupils who are struggling academically.

2. If DPI determines that a particular public school has been in the lowest performing 5 percent of all public schools in the state in the previous school year and is located in a school district that has been in need of improvement for four consecutive school years, the school board must do the following in the school:

- a. Use rigorous and equitable performance evaluation systems for teachers and principals.

- b. Adopt a policy establishing criteria for evaluating whether the distribution of teachers and principals within the affected schools relative to the distribution of teachers and principals throughout the school district, based on their qualifications and effectiveness, is equitable. If the school board determines that the distribution is inequitable, the school board must eliminate those policies and constraints that prevent low-performing schools from recruiting, placing, and retaining effective teachers and principals, and provide additional support to teachers and principals.

- c. Establish teacher and principal improvement programs.

- d. Adopt placement criteria for principals that include performance evaluations and measures of pupil academic achievement.

3. If DPI determines that a school district has been in need of improvement for four consecutive school years, DPI may direct the school board to do one or more of the following in the school district:

- a. Implement or modify activities enumerated for low-performing school districts above.

- b. Implement a new or modified instructional design.

- c. Implement professional development programs.

- d. Implement changes in administrative and personnel structures.

- e. Adopt accountability measures to monitor the school district's finances or to monitor other interventions.

4. If DPI determines that a public school is located in a school district that has been in need of improvement for four consecutive school years, and that the school has been in need of improvement for five consecutive school years or was among the lowest performing 5 percent of all public schools in the state in the previous school year, DPI may direct the school board to do one or both of the following in the school:

- a. Implement a new or modified instructional design.

- b. Create a school improvement council to make recommendations to DPI regarding improving the school.

This substitute amendment eliminates all of the above provisions (except those applicable to low-performing school districts), effective at the end of the 2019-20 school year, and substitutes the following:

Public schools

If DPI determines that a public school, other than a charter school, has received a grade of F for three consecutive school years, or has received a grade of F in three of five consecutive school years and a grade no higher than D in the other two school years, the school board must permanently close the school or contract with a high-quality charter management organization (CMO) to operate the school as a charter school.

If a school board determines to contract with a CMO, but cannot reach an agreement with any CMO, it may request the state superintendent to waive the requirement to contract with a CMO or close the school. The state superintendent may waive that requirement if the school board demonstrates that it engaged in a good-faith effort to contract with the CMO. If the state superintendent grants the waiver, the school board must convert the school to a charter school that is organized as an instrumentality of the school district and must do all of the following in the school:

1. Replace the school's principal.
2. Implement a rigorous staff evaluation and development system.
3. Reward staff who increase pupil academic achievement or high school graduation rates and remove staff who have not improved in these areas after being given an ample opportunity to do so.
4. Institute comprehensive instructional reform.
5. Increase the time provided for pupil instruction.
6. Apply community-oriented school strategies.
7. Provide greater operational flexibility and support for the school.

If the school board contracts with a CMO, the charter school may not be an instrumentality of the school district and the school board may not employ any personnel for the school. The school board must pay the charter school operator, for each full-time equivalent pupil attending the school, at least 90 percent of the average per pupil cost for the school district.

The requirement to close a public school or contract with a CMO to operate the school as a charter school does not apply if DPI determines, based on information provided by the University of Wisconsin-Madison Value-Added Research Center, that the school demonstrates high-value added growth.

These sanctions (and the sanctions described below for charter schools and choice schools) take effect in the school year following the school year in which the accountability report for the third (or fifth) school year is issued by DPI. Accountability reports are expected to be issued in September.

Charter schools

The substitute amendment provides that if DPI determines that a charter school has received a grade of F for three consecutive school years, or has received a grade of F in three of five consecutive school years and a grade no higher than D in the other two school years, the school board or entity that contracted for the establishment of the charter school must revoke the contract. If the charter school reopens as a private school, it may not participate in a PCP.

The substitute amendment provides, however, that a charter school's contract may not be revoked on the basis of grades received during the school's initial five school years. The substitute amendment also provides that a charter school's contract may not be revoked if DPI determines, based on information provided by the University of Wisconsin-Madison Value-Added Research Center, that the school demonstrates high-value added growth.

Choice schools

If DPI determines that a private school participating in a PCP has received a grade of F for three consecutive school years, or has received a grade of F in three of five consecutive school years and a grade no higher than D in the other two school years, DPI must issue an order permanently barring the private school from accepting any new pupils under the PCP. This requirement does not apply, however, if DPI determines, based on information provided by the University of Wisconsin-Madison Value-Added Research Center, that the school demonstrates high-value added growth. A private school barred from accepting new pupils may not reopen as a charter school.

CHARTER SCHOOLS; CONTRACTS

Under current law, an entity authorized to establish an independent charter school may do so itself or by contracting with a third party. This substitute amendment allows charter schools to be established by contract only.

Currently, a contract with a charter school may be for any term not exceeding five school years and may be renewed for one or more terms not exceeding five school years. This bill provides that the initial contract with a charter school must be for a term of five years if the charter school requests it.

PUPIL RECORDS

Under current law, all pupil records maintained by a public school are confidential unless explicitly allowed to be disclosed. This substitute amendment makes the pupil records law applicable to pupils attending private schools under a PCP and to charter schools.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

13 (2) The department shall establish a comprehensive school and school district
14 accountability system beginning in the 2017-18 school year that includes all of the
15 following components:

16 (a) Multiple measures to determine a school's and school district's performance,
17 including all of the following categorized by English language proficiency, disability,
18 income level, and race or ethnicity:

19 1. Pupil achievement in reading and mathematics.

20 2. Growth in pupil achievement in reading and mathematics, calculated using
21 a value-added methodology that includes demographic controls.

22 3. Gap closure in growth in pupil achievement in reading and mathematics and
23 in graduation rates.

1 4. Rates of attendance and of high school graduation. The measure under this

8 performance as A, B, C, D, or F.

9 **(3)** The department shall do all of the following:

10 (a) Except as provided in sub. (6), annually grade the performance of each
11 school and school district under sub. (2) (c) and issue an accountability report for the
12 school or school district that is clear and easily understandable. Except with regard
13 to pupil achievement and attendance and high school graduation status, the
14 department shall base the grade on data derived from at least 2 consecutive school
15 years, and from 3 consecutive school years when feasible. To the extent feasible, the
16 grade shall be calculated with 25 percent of the weight given to each of the measures
17 under sub. (2) (a).

18 (c) Collect and disseminate the best practices from schools, except that the
19 department may not collect information for this purpose from a private school
20 participating in a parental choice program under s. 118.60 or 119.23 without the
21 private school's consent.

22 (d) On the accountability report for a private school participating in a parental
23 choice program under s. 118.60 or 119.23, identify the grade derived from data
24 generated by pupils attending the private school under s. 118.60 or 119.23 as a choice
25 pupil report and, if the private school submits achievement data as provided in sub.

1 (4m) (b), include a grade derived from data generated by all pupils attending the
2 private school and identify it as a choice school report. The department may use only
3 the former grade in determining when a sanction under s. 118.60 (9m) or 119.23 (9m)
4 may be imposed. The report shall also specify the number and percentage of pupils
5 attending the private school under s. 118.60 or 119.23.

6 (e) Include a data component in a school or school district accountability report
7 for a school year only if the component includes data from at least 20 pupils in that
8 school year.

9 (f) At least 30 days before issuing an accountability report for a school or school
10 district under this section, provide the school or school district an opportunity to
11 review a preliminary version of the report and correct errors.

12 (g) Include on the first page of a school's or school district's accountability report
13 all of the following:

- 14 1. Data about pupils who are dropouts, as defined in s. 118.153 (1) (b).
- 15 2. Data about pupils who are suspended or expelled from school.
- 16 3. The number of advanced placement courses that are offered.
- 17 4. The industry certifications that are offered.
- 18 5. If a private school participating in a parental choice program under s. 118.60
19 or 119.23 submits achievement data as provided in sub. (4m) (b), the private school's
20 grade derived from data generated by all pupils attending the private school,
21 displayed just as prominently on the page as the private school's grade derived solely
22 from data generated by pupils attending the private school under s. 118.60 or 119.23.

23 (4) Subject to sub. (4m) (a), the department may use only the following
24 information for each measure specified in sub. (2) (a):

1 (a) For measuring pupil achievement in reading and mathematics under sub.

2 (2) (a) 1.:

3 1. Scores on the reading and mathematics examinations administered under
4 s. 118.30, including scores on the alternate reading and mathematics examinations
5 administered to children with significant cognitive disabilities.

6 2. The disability status of pupils taking the examinations under s. 118.30.

7 3. The grade level of pupils taking the examinations under s. 118.30.

8 4. The race or ethnicity of pupils taking the examinations under s. 118.30.

9 5. The English proficiency status of pupils taking the examinations under s.
10 118.30.

11 6. The eligibility for a free or reduced-price lunch under 42 USC 1758 (b) of
12 pupils taking the examinations under s. 118.30.

13 7. The enrollment status and history of pupils attending the school or school
14 district.

15 (b) For measuring growth in pupil achievement in reading and mathematics
16 under sub. (2) (a) 2., the information under par. (a).

17 (c) For measuring gap closure in growth in pupil achievement in reading and
18 mathematics and in graduation rates under sub. (2) (a) 3., the information under par.
19 (a) and the information under par. (d). When measuring gap closure, the department
20 shall ensure that a subgroup with a sufficient number of pupils within a school or
21 school district is compared to the statewide performance of pupils who are not in that
22 subgroup.

23 (d) For measuring rates of attendance and of high school graduation under sub.
24 (2) (a) 4., the information under par. (a), attendance data, and data about pupils who
