**2011** BILL

PWF

2/5/13 wanted today if possible

Gen

X

1 AN ACT *to renumber and amend* 115.28 (12) (b); and *to create* 115.28 (12) (am)  
2 and 115.28 (12) (b) 2. of the statutes; **relating to:** selection of student  
3 information system software vendors by the Department of Public Instruction. ✓

***Analysis by the Legislative Reference Bureau***

Current law requires the state superintendent of public instruction (superintendent) to work with the Office of the Governor to establish a student information system (SIS) to be used to collect and maintain information about pupils enrolled in public schools. The superintendent may charge a fee to any person that uses the SIS.

This bill requires the state superintendent to develop request-for-proposal procedures and criteria for selecting vendors of the SIS software on a competitive basis (selected software) and, beginning in the 2012-13 school year, to select at least two preferred vendors whenever a selection of software is made. The bill permits the superintendent to charge a fee to any person that uses the selected software to participate in the SIS. The bill also permits a school district to use a software other than the selected software to participate in the SIS, provided the school district's student information system is compatible with the SIS on certain measures, including the following: 1) the ability to assign a unique student identification number to each student enrolled in the district; 2) the ability to meet current and future state and federal reporting requirements and deadlines; and 3) the ability to transfer electronic student transcripts, electronic data, and electronic records to the
