Karl,

Section 341.265 allows registration of "antique motor vehicles." These are essentially motor vehicles with a model year of 1945 or that have not been altered or modified from the original manufacturer's specifications. Does this correspond with what you would like to do with tractors? A different model year?

Hi Eric,

Rep. Vruwink is interested in drafting an amendment to AB 295 that would permit antique tractors from registration for any purpose. I do not see a definition of antique tractor in statute, but could create parameters if there is not.

Thanks,

We would like to go with 1960 or earlier. However, we do want to exclude antique tractors with steel wheels, as that would cause excessive damage to roadways...so, antique tractors with rubber tires.
